49 Blood Donors at Red Cross Clinic

Forty nine blood donors went through the Red Cross clinic on Tuesday, while twelve volunteers were reported because of colds or other minor ailments.

The success in change of the clinic expressed themselves as being well pleased with the response of volunteer blood donors and also with the cooperation received from those who assisted at the clinic.

Donates Pet to Sale

Irene Bell daughter of Mr. and Mrs. R.C. Bell, is making considerable of a sacrifice in order to sell the community sale which is being held to raise funds for the rehabilitation work in this district.

She is donating her shetland pony "Tritie", for the sale. This pony has been her pet and is well known to the children around town many of whom have expressed liking her.

Irene, though loath to lose her pet, was anxious to do her bit for the boys when they come home, as she has decided to donate her pony.

Pool Pays Dividend

Calgary, June 1.—Calgary's tolling \$297,244.50 were mailed today by the Alberta Wheat Pool to Pool members who delivered grain to Pool elevator facilities in the crop year 1943-44. This payment was in refund of excess charges at the rate of one cent a bushel.

Since the year 1928 when the first Alberta Pool Refundators were built, the distribution of patronage dividends, including the present payment, has totalled \$2,990,806.62. In 1935 there were three Alberta Pool country elevators. Today the number is 454.

Conserving Moisture

Crops sown on summerfallow this spring will benefit from moisture accumulated since about August, 1942, as well as from rain which will have well fall the coming season. Under average conditions, this moisture about 30 inches of precipitation.

Experiments conducted by the Sidney Barley at the Dominion Experimental Station, Swift Current, over a period of 11 years, were recently studied by all developed farmers. Of the total precipitation which falls during the summerfallow period of 20 months (for example, August, 1942 to April, 1944), not more than 20 per cent is available to the summerfallow crop. What happens of the rest?

1. Some percolates down through the soil; but this loss is negligible except in humid areas.
2. Some runs off the field.
3. A lot evaporates.
4. The most is used by weeds.

We may ignore No. 1. Weeds cover and, where feasible, control tillage will reduce losses from No. 2. Loss from No. 3 is almost entirely avoidable. With respect to No. 4, it is significant that Mr. Barrow considered that preventing weed growth was the most important feature of summerfallow tillage. In the experiments, which yielded results that were no surprise when we considered the fact that the weed growth on the fallow was prevented as it did when weeds were not allowed to grow, it was found that some weeds would be planted under on July 15th.

It is noted that 200 pounds of dry weight in weeds per acre of dry land would mean.

Women's Army Corps

Being sent to Europe to help in the war effort. The Women's Army Corps (WAC) is a branch of the United States Army that consists of women who are trained to perform military duties. They are sent to various parts of the world to assist in the war effort. The WAC has been active since World War I and has played a significant role in the war effort. They are responsible for a wide range of tasks, including clerical work, medical care, and transportation. The WAC is an integral part of the United States Army and has made many contributions to the war effort.

SUNDAY SCHOOL LESSON

PAUL IN EFFRUS. Golden text: We are his workmen, his masterpiece, which he has made for himself in glory. Ephesians 2:10. Lesson: Acts 19:1-31. Ephesians 2:10. The lesson for this week is about Paul's journey to Ephesus. Paul was a Christian missionary who traveled throughout the Roman Empire. He was known for his powerful preaching and his ability to convert people to Christianity. In Ephesus, Paul stayed for a long time and many people were converted to Christianity. The lesson teaches us about the importance of faith and the power of God's word.

CITY and COUNTRY Banking by Mail

Man-power and transportation shortages have changed the banking habits of many city and country residents. They now use the mail more freely and come to the Bank less frequently.

Banking by mail saves time, wear-and-tear, time, and gasoline. It is convenient and simple. Write for folder, "How to Bank by Mail."

THE WEEKLY MEAT-FULL

V . . .

An air pilot may be able to fly like a bird, but he'll never learn how to sit on a bar stool like a bird.

I'm a self-made man, he said proudly.

You're lucky, staid the man behind the bar.

I'm the result of work of a wife and three daughters.

I just made one who needs a pig.

Hum, what's the reason?

My father's manhood catches.

Sequent. I understand you sell another 3 was a dog!

Corporal—It wasn't I. You're looking up the wrong tree, old man.

Hum—I'm as sure as hell.

Oh—Oh, yeah? Well, I'm as sure.

Let—Have you ever been outstayed by a woman?

Yes—Yes, I'm married!

WENT—Last Monday Tomlin's got into the last session on account of his eyes.

James—(to host) I think his eyes are wonderful.

It is true that private life longer than officers?

No, only seven longer.

A deaf woman entered a church with an ear trumpet.

Then after she had seated herself, an older lady asked her and whispered, "Oh, what can you hear?"

Oh, Harry was a poor price?

Yes, he married a pretty housewife however.

Disband the (legions) too. I've introduced a new type of a "new" banding, for.

Well (sighing) I—What new about it?

Disband! The upper of the band, isn't that where everything comes in when you want it?

Man (in restaurant): "My have a little service, please."

Waitress: "I'm giving you as little as possible."

Wife:—How do you like my new gown? I got it for a ridiculous price.

Husband:—You mean you got it for an absurd figure.

A girl's figure is her fortune. It always draws interest.

Customer:—My wife and I would like to open a joint account. How does it work?

Bank Teller:—Well, you put the money in, and she draws it out.

I was a fool when I married you. I suppose you were, but I was so infatuated at the time that I didn't notice it.

Mountain View M.D. Held Regular Meeting

Real estate discussion was one of the principal topics discussed at the meeting of the Mountain View M.D. Council held at Didsbury on Monday.

Mr. Davis of the Calgary Press-Courier, in the course of his address, stated that under the past war reconstruction scheme for rural electrification, the Dominion Government had agreed that a real experience project be established and that the area adjacent to Olds had been selected for one of the projects.

It is proposed to run main of miles east and west of Olds with four lines, 12 and 21, with four lines running north and south.

The average length of lines between farms must be not greater than 1 mile with a maximum length not to exceed 1 1/2 miles.

A contribution towards the cost of construction by the farmers who proposed using the power would be \$100.00 to be collected before construction started.

The minimum monthly charge for power would be \$5.00 per month, which would include 20 kwh of energy, and all other expenses of 30 kwh hours would cost 10c. It is necessary that 100% of the power be obtained to make the project successful.

The council agreed to give the project their support.

Arrangements were made, and just to the consent of the minister, for the 2nd of quarter sessions of land which the Municipality hold under tax recovery proceedings.

An application for exemption of taxes on a soldier's farm property was refused. This property was acquired in March of 1944 while the soldier resided in 1944. The property, therefore, was not the soldier's home property prior to enlistment, and not eligible for exemption.

It was reported that travelling had started on the secondary road east of Olds and it is hoped that considerable gravel would be laid during the month. Program is (continued on page 3)

Community Sale Was Very Successful Event

The community sale, which was held on Wednesday afternoon at the old rehabilitation fund, was highly successful. Over 400 people attended the sale, and the proceeds were used to further the fund.

The committee are well pleased with the result of the sale and wish to thank all those who contributed and also the buyers who made the sale such a success.

Also to Archie Rogers, who is the clerk for the fund, for his help.

U.F.W.A. Notes

There were thirteen in members present at the regular meeting of the U.F.W.A. Mrs. M. Wood presided in the absence of Mrs. Shriver.

Members expressed a desire to organize a junior hall.

Mrs. H. Wood and Mrs. H. Winger were appointed to investigate the regulations and by-laws. The junior committee is making plans for a picnic in August, when an invitation will be extended to service men's wives and children of Carstairs.

Mrs. H. Winger reported proceeds from the sale of the sale on \$21.80. There were 12 persons sold.

A Bulletin on "Social Welfare" was read by Mrs. H. Wood. The point is that it is more important to be here to live with need for our fellow men than to make high rating in our school subjects.

Mrs. Bell read from her son David, who is in hospital in London, England, the words of the M.D. Council, and told of the hospital where the Queen brought when she visited their hospital. David had the honor of shaking her hand.

Mrs. Bell opened the program with two delightful piano selections.

Mary Wood then gave a splendid report of her work at the University. She gave hints on house cleaning, kitchen planning, sewing, mending and drying. Mary sold several good recipes for the use of members. The report included all highlights on the visit to the new drying plant, gas testing, and various other labors.

The social program planned for the delegates was of very high standard.

A delicious lunch was served by the hostesses Mrs. Bowler, and Mrs. Bell.

French Citizens Murdered By Nazis In Caen

FAWN One of the last acts of cold-blooded audacity the German emperor committed was to have the statue of Alfred, erected at the height of his power, removed from its pedestal.

He estimated 25,000 specimens of a normal population of "Gross" (Gross, 1964) and 10,000 specimens of a "Gross" population of "Gross" (Gross, 1964) and 10,000 specimens of a "Gross" population of "Gross" (Gross, 1964).

Then to the first big test of the Free & Socialist Movement: the war against the empire. The war was round, and the movement was into them with like first time. I find out the most immediate needs of the French. By the end of the

GERMANS FEAR RUSSIAN COSSACKS

Germany's dread of the Russian Cossacks is well known. The Russian Cossacks are a semi-military force, and they are feared by the Germans. They are a semi-military force, and they are feared by the Germans. They are a semi-military force, and they are feared by the Germans.

The Russian Cossacks are a semi-military force, and they are feared by the Germans. They are a semi-military force, and they are feared by the Germans. They are a semi-military force, and they are feared by the Germans.

Children were frightened at the mention of Cossacks and adults were not any longer so stout. They were the privileged class of warriors who had many times been granted. They fought their way through revolutions and wars, and they were the backbone of the Russian army. They were the backbone of the Russian army, and they were the backbone of the Russian army.

And I have been considerable thought to the matter of this. As in that was attacked and is valued by the most reliable source with the highest war machine in history. Russia was given three to six weeks before being crushed. As has been many other European countries by the Nazis. The Russian fight valiantly, preferring to die than to be taken into the hands of the enemy. A high price from the Russian people for the German people.

And I have been wondering what can be done to make the most of the German. The Allied treatment provided in Versailles after the last war certainly formed out to be ineffective, probably too mild. The lesson, then, is that the treatment of the German people must be such that they may help us to win the war that for generations has made life miserable in our world and at this moment, all thousands with trouble and misery our future.

Democracy In Business

The co-operative movement is democracy in business. As it depends on human agencies to conduct it, it can never be perfect, but it is a long way ahead of the capital stock company and the modern trust corporation.

Co-operation does not exist in law or in formula. It exists in the minds and hearts and purposes of the people. It is founded on mutual confidence and trust. With the development of these ideals people can make a success of co-operation.

The Alberta Wheat Pool is a creation of the farmers of this province. It has demonstrated its efficiency as a business organization and also its adherence to the co-operative principles. To make it a greater success than ever, it needs the interest and support of a greater number of the farm people of this province.

The reserve champion a Hereford steer fitted for the show by Lorne Walsh. Medley weighed in at 900 pounds and was sold at auction to Adams Wood and Whittier for \$16 a pound. Special prize was awarded by the Hereford Breeders Association, business men of Carstairs and leaders of the club.

First prize for showmanship, donated by Archie Boyce, was won by Dan Robertson, Didsbury.

Later breed competitions were held.

John Kinch's Hereford was third highest priced animal, bringing 17 cents from Selways. Mary McWhan's Hereford went to Union Packers for 15 cents. Fannie Wainfall, who brought the first Angus into the ring, sold it to Douglas Holmes, Carstairs Cold Storage.

Favorites with the buyers were well fitted but slightly overweight animals weighing between 700 to 900 pounds which brought from 13 to 17 cents. One Aberdeen heifer weighing 1,070 pounds brought 15 cents and one animal a bit underweight brought 10 cents. The majority of animals were very well fitted.

Weddings

In United Church Chillsweh, B.O. July 10th Rev. Nelsons, officiated at the marriage of Miss Douglas Lina Taylor, eldest daughter of Mr. and Mrs. H. Taylor, of Chillsweh, B.O., and L. H. Douglas Raymond Sterling, youngest son of Mr. and Mrs. R. Sterling of Carstairs, Alta.

The bride wore a powder blue short floor length dress and carried a bouquet of tallies and roses. Miss Margaret Glenmichael of Victoria, bride-maid, in turquoise blue short floor length dress, carried a bouquet of pink and white carnations. Jessie Taylor, flower girl, sister of the bride, in white above, wore a shoulder corsage of mosses, sweet peas and baby breath. Rev. Glenmichael, R.O.M. Halifax, officiated at the groom.

Following the ceremony a buffet breakfast was served at the home of the bride, Mrs. H. Coppock of Carstairs and Mrs. W. G. Weber of Carstairs assisted with the serving. Later Mr. and Mrs. Sterling left for Bridge Falls B.O. and Calgary Alta for their honeymoon. The bride will return to Chillsweh, B.O. the groom to his station in the R.O.M. Halifax.

Heavy Week End Rain Brightens Crop Picture

Heavy and timely rains were
received over this section last week
and crops are now assured of
sufficient moisture to finish growth
and filling.
Some bad damage has been re-
ported in the southern end of the
district but on the whole crops are
in fine condition.

NOTICE TO EMPLOYERS AND THEIR MALE EMPLOYEES

By an order signed on August 15th, 1944, by the under-
signed Minister of Labour under authority of National
Selective Service Mobilization Regulations:

1. Commencing August 22nd, 1944,
every employer is required to check the
documents held by each newly engaged
male employee, within 7 days of the
employee's engagement, to determine if
such employee possesses documents to
show that he is in good standing under
National Selective Service Mobilization
Regulations (that is, in relation to the
Military Call-up);

2. Every employer must report on
Schedule 9 to the Registrar for his
Mobilization Division, concerning any
employee found not to possess docu-
ments as referred to;

By an earlier order, employers were required to check the
documents held by their male employees, and to report by May
1st, 1944, on doubtful cases as well as on cases where employees
did not possess documents. The procedure for the present
continuing check, although being notified to employers in "Notice
to Employers and their Male Employees", which is now being
mailed, is identical with that set forth in "Employers' Guide",
which presents the check made before May 1st, 1944.

Employers are asked to remember that they do not report on
men who do possess the necessary documents—only on those
who fail to present documents for examination, or where there
is doubt that the documents presented actually possess good
standing.

The employers of Canada co-operated very satisfactorily on the
first check, made up to May 1st last. This co-operation was
decisively helpful, and is very much appreciated. Further
co-operation is now earnestly requested.

Schedule 9 and details as to documents which possess good
standing, are available through the Employment and Selection
Division.

in the cinema, she exclaimed sud-
denly.

Oh, John, I forgot to turn off
the electric iron.
Don't worry, my dear, he replied
cheerfully, I forgot to turn off the
boiler too, so it will be quite all
right.

Let's swim the sea of life together
Your swimmer I can't resist.
Now copy dropped her upon and
swam.

You're on my wedding list.

Oh—Why do they call a mail
man slow?

After—Because it makes his heart
showing in the wind.

She—I'm tickled pink. My aunt
in Venice is sending me a goodie
for Christmas and I'll never play
one in my life.

He—My goodness, you don't
play a goodie. You throw it over
your shoulder like a shoe!

But I am a college boy
Judge—Ignorance is no excuse.

Serving the Home Front

With Canada's war effort
at its very peak, and the
call for more, grain, shells
every more intense, it is
difficult to maintain peace-
time efficiency on the home
front. In industry—man-
ufacturing—transportation,
less experienced work-
ers are replacing the
trained men who are de-
voting their skill to other
tasks.

Therefore, when you are
enriching from your EATONS
Catalogue, we ask you to
help us to avoid duplication
of work as much as pos-
sible. Time is precious,
and it can be saved if you
will read carefully the
"Directions for Ordering". In
the yellow pages of the Ca-
talogues, and make your re-
ders as clear and complete
as you can, giving Cata-
logue number, quantity,
size, color, and name of
each article, with the Cata-
logue page and price. We
count on your cooperation.

Girls Return From Their Riding Excit

Misses Lillian Reid and Kileen Lowrey returned, from their cross country ride to Banff, on Wednesday evening. Due to rain, several poorly timed trails and rock slides on the road, the girls' trip and recuperation period of 4 days in Banff, totaled a total of 16 days. (Being to the shore rock slide on the north side of Lake Minnewanka, on return the girls proceeded along the wind fallen trail up the Carrot Creek Canyon, and over Mt. Proctor summit to the south side of the Lake.)

Only one snow fall was experienced on all the nights they slept on the road, was at the mouth of the Devil's Gap on the Great River. The girls reported a most rock slide on Black Rock Mountain, which they scaled on Sat. 20th. They rode the horses up to 10,000 feet and then proceeded on foot to the peak.

The trip proved so successful that a similar expedition is in view for another year.

IN MEMORIAM

In memory of Dad O.W. Richardson who passed away Sept. 11th 1940.

Four and years have passed, since our great sorrow fell, The check we received that day, We still remember well. He back so soon a last farewell, He said goodbye to us, The heavenly doors were opened wide, And a better voice said "Come". A light to lead our household guide, A voice we loved is still, A place is vacant in our home, Which never can be filled, Ever remember by his loving wife and family.

Price Control And Rationing Information

Q. Mr. Mac, some confusion has been created by the fact that the rationing of certain goods is being controlled by the Ministry of Food, while the rationing of other goods is being controlled by the Ministry of War. Can you explain this?

A. A distinction of responsibility for rationing is made by the Ministry of Food and the Ministry of War. The Ministry of Food is responsible for the rationing of foodstuffs, while the Ministry of War is responsible for the rationing of other goods. This is done to ensure that the most essential goods are rationed first.

Q. I have been asked to buy a book which has been rationed. Can I buy it if I have a ration book?

A. Yes, you can buy a book if you have a ration book. However, you must have a book ration which is valid for the purchase of books. If you do not have a book ration, you can apply for one.

Research in Canada

SCIENTIFIC RESEARCH HAS BEEN the means of springing many possibilities in life, and has had the far-reaching effect upon the course of history. Its importance is stressed in modern warfare, when scientific research is used to create new weapons, but also in the use of science in dealing with the destructive forces of the enemy. While it is in warfare that science is most often used, it is also in the development of the industrial revolution that science has played a major role. It is in the development of the industrial revolution that science has played a major role. It is in the development of the industrial revolution that science has played a major role.

Valuable Work Is Done Here

Mid-Canadian countries have, for many years, recognized the importance of research in general progress, and, consequently, their activities have been directed towards the interests of national development. Canada has gained the reputation of being a country with independent action, and much valuable research has been done by this body on a wide variety of problems.

At a recent meeting of the Canadian Institute of Public Relations, B. W. Blythe, chief of the Physics Division of the National Research Council, said that the importance of the Institute for Canada's scientific progress was being recognized. He said that the Institute was a body of scientists who were working on a wide variety of problems, and that the results of their work were being used in many ways.

Figures Show Small Output

As a result of the war, the Canadian Institute of Public Relations, B. W. Blythe, chief of the Physics Division of the National Research Council, said that the importance of the Institute for Canada's scientific progress was being recognized. He said that the Institute was a body of scientists who were working on a wide variety of problems, and that the results of their work were being used in many ways.

Joe Citizen Says...

Some think the war is nearly thru; some take a quite contrary view. I prefer to wait and see, but with one viewpoint I agree, and that is we must carry on until the need for help is gone. Suppose the fighting all was done the peace would still have to be won and that, if I am seeing right, won't be a job done overnight. No, sir, we won't for many a day from wartime rules get clear away. War's cost has certainly been steep and lasting peace'll not come cheap. The demands of good times let us quit and to our country's needs submit. Let's lend our money say how—that's what we're asked to do right and, personally, I just plan (now) to lay in every bond I can.

For once, he said briefly. You ought to have been on the lookout for this was the boldest remark. You remember the guide around you said there was a funk in the road.

She—When we got married I'm getting to cook, now dare you cook and lay out your gips and slippers. What more can any man ask, then that?

ABOUT THE THINGS YOU BUY IN WARTIME

The sugar situation is NOT sweet

FOUR-FIFTHS OF THE SUGAR CANADA COMMERCE HAS TO BE IMPORTED. This map shows where Canada, Great Britain and the United States get their sugar in the good old days of peace. Our three countries take practically all the exportable sugar from these major sugar-exporting areas.

But supplies have either been cut off by enemy occupation of the country—as in the case of Java and the Philippines, or their production radically reduced by shortages of workers, as in the case of Hawaii, Puerto Rico, Australia, Trinidad, Fiji.

The war has brought some seasonal demands on the United Nations' sugar pool. But countries have been taking for making industrial alcohol used in the manufacture of synthetic rubber tires, not to mention T.N.T. and explosives powder. For instance, the explosive to fill five Mustang shells requires as much sugar as

THE SUPPLY IS THINNED. All major supplies are needed and under the control of the Combined Food Board of the United Nations, which allocates supplies to Canada, United States and Great Britain on a basis.

SUGAR: "HARD"

At the time of "Pearl Harbor" the United States had a reserve supply of about 3 million tons, but for the last 2 years we've been using more than has been produced—and dipping heavily

WE'RE LIVING ON OUR SUGAR CAPITAL

into "reserves." Liberal rationing will have to step in. Since good crops could improve the situation, but greatly increased supplies will be in sight. If current consumption keeps up, we could be very short of sugar next year. It's time to be strict to conserve our supplies.

Even the production of beet sugar in Canada and the United States has been drastically cut by labour shortages. In both countries the '45 sugar beet crop was forty per cent less than in '44. The only country to show an important increase is Cuba, where output had for years been deliberately restricted. But its increase has not been sufficient to offset the losses elsewhere—let alone meet the increased demand.

DO WE NEED MORE SUGAR?

A century ago the whole world didn't consume as much sugar as Canada does today. Our sweet tooth has been acquired in quite recent times. Sugar rates high for its energy value, but steadily food is a good substitute.

DISCOVERING THIS STRATEGY BECAUSE OF SHORTAGE OF SUGAR. IT MUST BE CONTINUED BECAUSE WORLD STOCKS ARE INSUFFICIENT AND IS ONE OF A SERIES OF MEASURES BEING TAKEN TO SAVE THE SUGAR INDUSTRY OF VARIOUS COUNTRIES AND COMMERCE

Price Control And Rationing Information

Q. I have been reading in the papers that there is a shortage of many commodities. Is this true?
A. Yes, there is a shortage of many commodities. The government has taken steps to control prices and rationing to ensure that everyone has access to the necessities of life.

Q. What can I do to help?
A. You can help by conserving resources and supporting the government's efforts to control prices and rationing. This will help to ensure that everyone has access to the necessities of life.

Q. How can I get more information?
A. You can get more information by reading the papers and talking to your neighbors. The government is doing its best to control prices and rationing, and we all have a role to play in this effort.

If a Child Has A Cold

When a child has a cold, it is important to take care of it. A cold can lead to more serious complications if it is not treated properly. Parents should ensure that their child gets plenty of rest and fluids, and that they consult a doctor if the cold persists.

IT'S NOT OVER YET!

Victory is in sight, but there is still a long, difficult path to travel before it is achieved. When both Germany and Japan are beaten to unconditional surrender . . . when the men who have fought our battles are only home and re-established in a new and better civilian life . . . then and then only may we say that Victory is ours.

It is the job of our fighting men to bring them to the end of the war . . . they to be supplied with the tools of war and the rewards of peace when it returns.

Agriculture And The War

AGRICULTURE IS ONE OF CANADA'S largest industries and it has played a vital part in the nation's economy. What is the most advanced crop-producing force, and the importance is illustrated in figures for the industrial war years of the League of Nations, when the wheat crop in Canada in 1941 of 200,000 bushels per acre in Australia the yield was 20 bushels per acre, in the United States was 10 bushels per acre, and in the United States was 10 bushels per acre.

Yes . . . Six
Victory Loans
have been
successful

But . . . we can never tell what the result will be until all returns are in.

Carstairs is asked to buy \$55,000 worth of 7th Victory Loan Bonds.

We have to buy \$55,000 to enable Canada to get \$1,500,000, 000.

We cannot . . . assume that this loan will do over the top . . . and leave it for other communities to do their share.

Right now . . . it looks as though a lot of people in this community are talking it for granted that other communities will do more than their share.

Just suppose other communities left it to us.

CANADA would not get the money required.

(That is what the Canadian all over borrowing money is based on over these bonds and twenty million dollars at this time.)

Post-War Trade

THERE IS CONSIDERABLE INTEREST at present in the prospects of post-war trade and for the future demand for the products of Canadian farms and industries. It is evident that other nations are also interested with the number of countries that have been visited since the war began, and that there have been many visits to the provinces of Canada.

Canada's present position in regard to export trade is extremely favorable in fact the volume of exports from this country has never been so great as it is now. Pictures show that Canadian exports are at this time the highest in the world. We are surrounded, however, that the property of the largely in the past, and that slightly per cent of our present export trade is made up of materials of war. From products including better eggs, cereals and hams are now in great demand on the British market, but when normal conditions return, it is thought that Britain may only pay for these products than before. But advantages in many lines have also created a need for wheat and other foodstuffs, where there will continue long after the war is ended.

It is expected that if Canada is to maintain the present level of export trade, it will be necessary to build up many more plants in the provinces. It is expected that the agricultural products are in continuous improvement of the quality of the goods exported, with the result that the volume of exports will be increased. Many more plants are to be built, by the provinces, in the future. It is expected that the volume of exports will be increased. Many more plants are to be built, by the provinces, in the future. Sugar Beets

According to present estimates, the 1941 production of sugar beets will be slightly increased over 1940. A new sugar beet growing area was developed in Quebec this year from which a harvest of 50,000 tons is expected. Production in Saskatchewan this year is nearly double the 1940 crop. Alberta, 200,000 tons also shows an increase which is not their contribution to the total. The total 1941 crop of beets, now placed at 800,000 tons is 20 per cent greater than in 1940.

Visited Plotting Room

King George has been heard to say that he has visited the plotting room of the British War Planning. In a room the feet underneath the King saw the plot of the British invasion of Western Europe. He saw it all at 10.30 a.m. on May 10, 1940. The King stood in the plotting room of combined headquarters in the Portsmouth Command where the whole of the naval code of the invasion was planned and directed. With him were Sir Robert Boyd, chief of staff of the commander in chief of Portsmouth, Admiral Sir James Dore, the King walked down the 150 steps leading to the city command, and reached underground headquarters.

Eighty Wrens and a number of W.A.A.F. met around the plotting table in the telephone room. On the table was a large map of the English and Welsh coast and the Channel, with several maps pinned and red lines and other markings, indicating the enemy routes and the passage of ships on the English Channel.

THE BAND PLAYED ON

A relief band landed on a bank and the band stood where a military band was playing. The band consisted of the small trees and stopped the leaves from the larger trees. One observer made a remark about the extraordinary effect of the band. Another said: "That is more extraordinary than that the band has never stopped playing."

Weddings

St. Mary's Cathedral was the scene of a pretty wedding on Dec. 12th when Gladys Christine daughter of Mr. and Mrs. F. Carrie of Calgary became the bride of Thomas Stottson son of Mr. and Mrs. O. Trotter, of Carstairs.

The bride wore a two piece gold colored wedding suit and matching hat with shoulder length veil arranged with a carriage of red roses and forget me nots.

The attendants were Miss Alice Koots and Mr. Emilio Trotter. Following the wedding a reception was held at the Home and Fish and white streamers decorated the bride's table, which was entered with three tiered wedding cake. The host was prepared by the Father Lenoir, to which the groom responded.

In the evening Mrs. P. Carrie and Mrs. O. Campbell entertained friends and relatives of the bride and groom.

Lester and Mrs. Trotter left for a honeymoon in Banff.

The regular meeting of the I.O.D.E. will be held at the home of Mrs. O. Wright on Tuesday Dec. 18.

Geo. Foster has purchased the A. E. Burns home in the south end of town.

Word was received today from overseas that Oliver Durling has been promoted to the rank of Sergeant.

CARD OF THANKS

We wish to thank my many friends for so kind and sympathetic shown us in our recent bereavement, and also for the beautiful floral offerings.

THE WEEKLY SNOWFLAKE

V . . .

What are you going to do about it? demanded the outraged tenant. The walls of my house are all bulging outward. Being outward are they? said the landlord with a smile. Then your house must be bigger I shall raise your rent.

A couple of nice pins always makes a girl feel more secure.

Utauto—Good-bye, dear. Look after the house, well, and if you need money while I'm gone just go to the bank.

Wife—Yes, dear. What time does the bank open this morning?

American soldier—I come from Denver, Colorado. The folk who live in Denver are a mile high. Australian girl—My goodness, do they bend down to tie shoe laces.

Rookie [at eastern dancing] Left me was a big empty desert until I met you. Who—So that's why you dance like a camel?

Girl—I used to think you were dumb when I first met you. Boy—Really?

Girl—But I wasn't sure of anything in those days.

The National Research Council Building Up A Body Of Trained Men For Development Of Science

SCIENTIFIC methods of the National Research Council have greatly enhanced the laboratory studies and the development of new techniques in the field of agriculture. The council's research has been directed toward the development of new methods of agriculture, and the results of its work have been widely recognized.

The council has been successful in its efforts to build up a body of trained men for the development of science. It has done this by providing a wide range of opportunities for research and development, and by providing a wide range of opportunities for the development of new techniques in the field of agriculture.

Milk Consumption

Per capita consumption of milk in Canada has increased by 10 per cent in the last five years. This is due to a number of factors, including the fact that milk is now more readily available than in the past.

**HOW MUCH OF THIS MONEY
WENT INTO YOUR POCKET?**

THAT'S A LOT OF MONEY! It represents the gross agricultural production in Canada for 1944 as estimated by one of the country's leading farm magazines. It represents the earnings of Canada's biggest primary industry.

In the share of this huge sum of money which came out your farm as much as it might be? In other words, is your farm producing to the full extent of its possibilities? Could it be made to produce more?

You can answer these questions for yourself too! If you are in a position to have exactly how much you spend and how much you receive in cash of your farm operations.

You can know these facts only if you have some reliable way of keeping track of your receipts and expenses. We don't mean anything complicated... just the opposite—something quite simple, such as our **Winnipeg Account**.

A few minutes at this book every day or so and you will know just which operations of your farm are doing well, which only fair, which are falling behind. Then you can take the necessary steps to correct matters.

A copy of this book is yours for the asking. Call at our office for a copy. While you are in, have a word with our manager. He will be glad to see you, and to discuss any problems you may have in the operation of your farm.

H.B. Brown of Wain has purchased the building and business of the Carstairs district and expects to move here within the next month. In the meantime Elsie is operating the business here.

The United Church Ladies Aid is holding a social evening on May 12, at 8:30 in the church hall. Be sure to come and join in the fun and enjoy a good time.

Two local risks played for the Red Cross at this last Saturday night but failed to lose the last round.

The Parcel Fund

Recent donations to the Parcel Fund are as follows:
C. Hays \$1.00
A. Pendergast \$2.00
Mrs. L. Hays \$2.00
Further donations may be left at Customs House or the Drug Store.

Board of Trade

The Board of Trade of Carstairs district last night presented very interesting and instructive and should be of considerable value to those stockmen who attended.

With regards to the new risk project, the committee was instructed to commence their survey for funds.

In order to record the progress of the drive a list will be published of work week in these columns.

SMILE AWHILE

When a man breaks a smile, it usually has to do with a girl. A girl who is smiling at him.

"I was in a situation," admitted the doctor, "that I couldn't very well smile."

"What, of your job as mother, I wouldn't worry about it either."

"But 'what about the \$4 you owe me?'"

"That's your birthday on Friday. I'll bring it to you with my congratulations."

"But I'm not bringing the money and I'll congratulate myself."

"You nobody ever brought in 'congratulations' before. I asked a friend to write them for me."

"That's the best thing a business to have for a service."

"After" was the reply. "That business is 'congratulations'."

History In The Making

WE ARE LIVING, in a historic moment, a time when the world is being remade. The great powers are engaged in a struggle for supremacy, and the fate of the world hangs in the balance. The people of the world are being called upon to make a choice between peace and war, between freedom and slavery. The history of the world is being written in the blood of the brave men and women who are fighting for the cause of justice and liberty.

Likes Hitler To Napoleon

Hitler's attempt to conquer Europe has been compared to Napoleon's conquest of that same continent over a hundred years earlier. Some people think that Hitler is a modern-day Napoleon, and that his conquest of Europe will be the beginning of a new era of world peace. Others think that Hitler is a madman, and that his conquest of Europe will lead to a new era of world war.

Many Changes Now Imminent

The time has come when many changes are imminent. The world is being remade, and the people of the world are being called upon to make a choice between peace and war, between freedom and slavery. The history of the world is being written in the blood of the brave men and women who are fighting for the cause of justice and liberty.

HOW YOU CAN GET QUICK RELIEF FROM SORE, PAINFUL PILES

Price Control And Rationing Information

The government has issued new regulations regarding price control and rationing. These regulations are designed to ensure that essential goods are available to all citizens at reasonable prices. Citizens are urged to comply with these regulations and to report any violations to the appropriate authorities.

SMILE AWHILE

It is time to smile a while. Life is short, and we should enjoy it while we can. Smile at the world, and the world will smile back at you. Smile at your friends, and they will smile back at you. Smile at yourself, and you will feel better about yourself.

Long Way From Home

It is a long way from home. The journey is long and arduous, but it is worth it. The destination is a place of peace and tranquility, a place where you can relax and enjoy the view. The journey is a test of your endurance and your faith, but it is also a journey of discovery and growth.

Look out for Trouble from Sluggish KIDNEYS

Sluggish kidneys can cause a variety of problems, including back pain, fatigue, and swelling. It is important to take care of your kidneys, as they are one of the most important organs in your body. There are many ways to keep your kidneys healthy, including drinking plenty of water, eating a healthy diet, and exercising regularly.

A Good Suggestion

A good suggestion is to take care of your health. Health is the most important thing in life, and it is the foundation for everything else. If you are healthy, you can enjoy life to the fullest. If you are not healthy, life can be a constant struggle.

People Clothing

People clothing is an important part of our lives. It is a way of expressing ourselves and of showing the world who we are. People clothing can be a source of pride and confidence, or it can be a source of shame and embarrassment. It is important to choose people clothing wisely, and to wear it with confidence.

Discol Gravel Trusters

Discol gravel trusters are a type of gravel that is used in construction. They are made of gravel and are shaped like a truster. They are used to support the weight of a building or a bridge. They are a very important part of construction, and they are used in many different ways.

PATENTS

Patents are a way of protecting inventions. They give the inventor the right to make and sell the invention for a certain period of time. Patents are an important part of the legal system, and they are used in many different ways.

BOILS

Boils are a type of skin infection. They are caused by bacteria that enter the skin through a small cut or scratch. Boils are usually painful and can be very uncomfortable. They can be treated with antibiotics and other medications.

Says Canadian Agriculture Must Supply The Kind Of Food That The Export Market Will Require

Dr. address by Dr. H. B. Martin, Export Minister, Department of Agriculture, before the Canadian Agricultural Association in the University of Toronto. It has been the aim of the government to make Canada a self-sufficient country, and to make it a country that can supply the world with the kind of food that the export market will require.

Because so much depends on the quality of the food that we export, it is important that we should be able to supply the world with the kind of food that the export market will require. The quality of the food that we export is of great importance to the export market.

Give us a chance to do that PRINTING JOB

... That drum of Imperial Oil fuel for tractors means a lot those days to the hard-pressed short-handed Canadian farmer. It's the power behind his tractor—a "hired man" that works for just a few pennies a day, and spends up ploughing, mowing, harrowing and mowing other jobs around the farm.

With farm labour scarce these days, it's vital to keep your farm machines on the job. Safeguard their performance, increase their life by using dependable Imperial Oil Lubricants and Fuels designed for farm service. Your friendly Imperial Oil Agent will bring them to your door. But it is important that you place your order now so that you will be assured of having the products you need in good time.

PORK AND BEANS

THE WEEKLY MEAL-PLANNER

V...

Life is said to be the least step of death for the average man when he has his last supper of pork and beans.

Don't—You'll find out soon for your comfort. I think it's due to drinking. May, I'll come back some time when you're older.

Phonetic (singing) Let's have you sing! Housewife—It's not badly. When we were waiting for you to arrive I taught the children to sing.

How it says here, German diet is back into Italy. He—Well, that's good news, but it's a dangerous situation. They don't they make their work.

Wife—How do you like the C.W.A. party, dear? Husband—Blavatsky, Fine, those men, women, and it's a nice show.

His man is a striking beauty. You can say that again, she stopped me twice.

Daughter—Enter the room now, please, Mr. L. I've been waiting. Mother—Enter for you must have.

Jan—My father's a doctor. I can be a doctor too. Father—Well, since a professional is a man to go for nothing.

Tommy—Remember a tractor. I can see that Mr. Jones, at our New and Future Home, will give us a present, but I hear he is not full of his money.

He—That's not in the picture! She—No, I'm tired—let's sleep tonight.

Customer—Remember that those you sold me yesterday? Owner—Yes, indeed. Customer—Did you say it was imported or exported from Britain?

Does your husband talk to his dog? He—It's terrible embarrassing. He just goes.

What does YOUR FARM NEED?

How often have you said "If I could only raise the money?" Well, if you could, what would you do to improve your farm and increase your production?

Would you build a modern home?
 or buy new machinery?
 or modernize your house?
 or rebuild your barn?

You can raise short term money from your bank; and long term money from other institutions by way of mortgage. But there are some things you would like to do which require loans that are neither long nor short...

That is where the banks, operating under the new Farm Improvement Loans Act, can help you. The gap has been filled. "Intermediate" loans at a specially low rate can now be obtained for periods of two or three years—or even longer, in cases up to ten years.

So, if you have a project in mind to improve your farm, drop in and talk it over with your local bank manager. Ask him what he is now empowered to do to help make your farm living more attractive and your work more profitable.

We will tell you—and show you—that your bank is just as eager to meet the sound credit needs of the farmer as of the merchant or manufacturer.

PORK AND BEANS
 THE WEEKLY MEAT-PIZZA

V

A mother has written that a man knows nothing about pork and beans.

I have just learned that my wife has been making out her list for pork and beans for the week. I have been making out her list for pork and beans for the week. I have been making out her list for pork and beans for the week.

What a man stands for isn't very thing. What he talks for is more. Virtues are learned at mother's knee, and from a good other place.

Jury—Late hours are not good for men.
 Both—First fast for ten.

There was this girl who went out with a soldier and married him. He was a very nice man. He was a very nice man. He was a very nice man.

Don't your husband talk to his wife?
 He, and it's terribly surprising, the just give.

My wife, her mother, reporting to me, says you are really a lot better than you were going to be.

THANK YOU

I want to take this opportunity to thank the many friends for their generous contributions during the year. I have been in business and to ask for a contribution of your support for my company.

Thank you very much.

The men working in the mines in Western Canada must be kept equipped at full time all through the Spring and Summer months. If there is to be no coal.

COAL

If there is no work for the miners, they will take work.

Coal mined during the next few months can be hauled by the railways from the mines to distilleries. Later in the season the railways will be busy carrying grain.

See your dealer at once and have him fill your bin as soon as possible.

People Now More Adequately Fed

Statistics for the year ending in November 1945 showed that the per capita consumption of food in Canada was 1,100 pounds, as compared with 1,000 pounds in 1944. This was a record for Canada and was due to the fact that the government had been able to secure a large quantity of food from the United States. She—He is growing a mustache
on the installment plan
How's that?
A little down per week.

Figures show that two can live
so cheap as one—so long as the
figures don't change.

Berge—Of course, being back in
Canada, I miss the cows and sheep
and pigs and things

Betty—Ah, yes, but we still have
each other, darling.

NEEDS OF THE WAR
IN BATTLE—WE CAN

INVEST IN THE BEST
BUY VICTORY BONDS

SUPPORT GIVES THEM CONFIDENCE

"An army can move only as fast as its supplies." This truth is well established. Engineers and infantry need military support. All need ammunition... food... and they need moral support... proof that we, at home, are doing all we can to back them up. Ammunition is objective. Support is vital.

And that is where we, the home front, come in. We are the backbone of the war effort. We are the support that gives them confidence. We are the support that gives them confidence. We are the support that gives them confidence.

CHAMBERLAIN ANSWERS—Furnished by a media source, Chamberlain answers to the question of the new power plant.

CANADIAN ENGINEERS BRIDGE THE GULCH—Keeping pace with the Army is no small task when it comes to building bridges for their limited budgets. Engineers performed non-trivial work in bridging the Rhine River. The top photo shows engineers staking into position a section of river bender, and on completion was named "Schreibers Bridge" after a Staff Sergeant. The lower picture shows engineers loading sections of a Bailey "Mobile Bridge." Canadian engineers are now talking across the Rhine to the West Bank.

SOCIAL CREDITERS

DID YOU REALLY VOTE FOR THIS LAST
AUGUST?

1. \$18,000,000 cash to International Financiers holding Alberta Bonds.
 2. A Pittance for Medical Aid to Old Age Pensioners.
 3. Antagonism to Labor Organizations in Big Industry.
 4. A Bill to Incorporate the French Canadian Society of Alberta.
- You did not vote for this but you GOT it because you trusted the leaders and did not know how they had changed since Mr. Abernethy's passing.

DO YOU WANT TO VOTE FOR THIS
FEDERALLY?

1. The idea that we can't find jobs for those returning from the war and the war plants.
 2. The old Hitler Line: "Down with the world slave state, Russia, the Jews and International Financiers." This line will only strengthen and reform as it did in Germany, will advantage world peace efforts and will eventually lead to war with Russia. Do you really want that?
 3. Destruction of Co-operation through Taxation.
- No, you do not want that. But that is what you will get if you vote for those leaders who have deserted what Mr. Abernethy stood for. Today the Social Credit leaders out-Try the Tories.
- The C.C.F. Government at Regina has lost its grip on it. It didn't promise anything that Ottawa COULDN'T deliver. The C.C.F. Government at Ottawa will keep its promise otherwise.

The C.C.F. is the only Party that can defeat the Old Labor Parties Federally. If you want them defeated you must not waste your vote on Social Credit.

When curves become circles a woman is no longer attractive.

When the henpecked husband died and went to hell, he immediately started leaving the imp around and giving orders.

Boy, round women, you eat as though you owned this place. I did, said the new owner. My wife gave it to me while I was on earth.

Then there was the burglar who stole a dress for his wife and had to go back home to change it.

It may be just coincidences but it seems funny that the hot weather and the political campaign started about the same time.

Television—When you can see stars as well as hear it.

What are you looking about? asked the stockyards man. Somebody gave me the wrong answer, replied the butcher.

The reason why women live longer than men is because they get more and more out of being married.

A man is like a lamp with trimmings of time before he gets the right flame.

There are still a few women left who talk about married operations in whispers.

The Bell Telephone Company of Canada has 79,000 unlisted telephone service. These numbers are listed, primarily for residents telephoning held on under Wartime Prices Board regulations.

Exotic restrictions on Canadian pleasure travel to the United States, Canada's Foreign Exchange Control Board has announced that no foreign exchange permit will be required to take \$50 or less in United States currency out of Canada.

Under new Canadian tire regulations automobile tires will not be rationed after June 1. Approximately 25,000 vehicle owners will be allowed new tires.

OPPORTUNITY for LABOUR

Prosperity on the farm is reflected in better living conditions for ALL workers. This is a fact that has been proved by impartial surveys.

One survey undertaken in forty-eight states of the United States definitely showed that in periods of good prices for farm products, the average worker's cost of living was low in relation to his income. When, on the other hand, farm prices were at a low level, the same survey demonstrated that the cost of living was high compared to the average wage and salary level.

Farmers AND workers will aid their common cause for a better livelihood by electing a Bracken Government.

The C.C.F. Land Policy

Your attention to the Old Line Parties will tell you awful stories of what the C.C.F. will do with your land.

Here is the answer:

1. THE C.C.F. MANIFESTO: In 1932 the C.C.F. manifesto was issued at Regina. In that first declaration of policy, the C.C.F. demanded the present, individual ownership of farms. It demanded protection for the farmer from mortgage foreclosure.

2. THE FARMER: Many active C.C.F. members are farmers with big farms and farms paid for. They support the mortgage foreclosure and otherwise as an incentive for security.

3. O. E. WOOD: C.C.F. member for Calgary, says: "I have clear title to one section and three-quarters of land at Brimley. What does that tell me? That I would stand for a policy that would take my land."

4. THE C.C.F. IN SASKATCHEWAN: As soon as the C.C.F. gained power in Saskatchewan it threatened the farmer owning the land. In Saskatchewan the C.C.F. Government has given the farmer greater security in possession of his land than is enjoyed by farmers in any other province. In Saskatchewan a farmer who is charged in possession of crop failure. No interest payments are foregone. Judge the C.C.F. if that is not, not by this mortgage Commission but by itself.

On the appointed day about seven Eskimoes assemble with their whaling boats along the shore of Kigarsuaq and the whaling season begins. They cover the bar with a good depth of water. All over the deep blue waters between the bar and the frozen mouth the white backs of the manatees are visible. The whaling begins with the whaling line and the whaling line disappears as they gashed like porpoises at play.

At the end of a shoot from the anguilla the punt man on the waiting Eskimoes bangs into the

Earl Watson tells a story about former Russian children in the United States who on a visit to the White House were served chocolate Washington cake. The cake was of double chocolate and cream. He was serving it when a lady, Little did she know, was serving the water for Washington. The water poured him a lot of delicious chocolate cake.

"This is a funny country," Little said to the water. "The best Washington cake I had was all white and all black."

"Well," replied the water, "in my country we have two Washingtons: George and B. her T."

Play Safe with Your Tires

Trust your tires are older than most. Will an unexpected week spent "let go" one of those days—laying up your car on wheels—costing you time and money—perhaps resulting in serious crop losses, too? No farmer can afford to take chances like these when it's so easy to protect them against failure. Just drive to your Imperial Atlas dealer. He will carefully inspect your tires... check them for cuts, breaks and weak spots.

If you need new tires, remember that Imperial Atlas Tires are engineered for extra miles in farm service. They are built to "take it" on rough roads, with heavy loads... and priced to give you mighty big value in first-class tire quality.

NOW IS THE TIME TO DELIVER YOUR WHEAT THROUGH POOL ELEVATORS

For the remainder of the present crop year, that is up to July 31, farmers may deliver any quantity of wheat they wish. After July 31, however, the 1945-46 delivery quota of 14 bushels per authorized acre will be in effect. This quota, set by the Wheat Board, will apply throughout the province and deliveries will be definitely limited to the amounts allowed to each farmer under it.

Now is the time, therefore, to get wheat delivered, unless you wish to keep it on your farm as a reserve. The place to take it is to your local Pool elevator. It is your elevator, built by you to give service at cost. It will be to your advantage to use it.

Rationing helps the FARMER

HERE'S NOW!

THE FARMER helps Rationing

HERE'S NOW!

It is a fact that the farmer is the backbone of the nation. He produces the food that we eat. Without him, we would starve. Therefore, it is essential that we support the farmer in every way possible. One of the best ways to do this is by using ration books. Ration books help the farmer by ensuring that he receives a fair price for his products. They also help the consumer by ensuring that they are getting the best quality products at the lowest possible price. So, let's all use ration books and support the farmer. It's the only way to keep our food supply secure.

Fighter Group No. 10 Made History

in Battle Of Britain
Fighter group No 11 with 11 pilots and 300 personnel was the nucleus of the heroic Ten of the Battle of Britain in 1940 aerial battle. Britain the ministry of information has released

In the prolonged contest the R A F definitely destroyed 2 275 German aircraft of which Fighter Group No 11 which included the famed Canadian squadron of the R A F shot down 2 033. Losses within the group were replaced from the group and altogether R A F fighters around lost 975 pilots killed while 150 were wounded.

Flight instructor No. 11 was killed and landed all the machines were the same. The English was regarded in its squadrons of 10 aircraft each. Not a squadron had their full complement of planes. Three squadrons were equipped with Spitfires in with Hurricanes and the remainder with aircraft regarded as obsolete. The squadron normally consisted of 1 aircraft of which 12 were kept at state of immediate readiness and the

The Luftwaffe's onslaught began July 7 1940 and the attack came in strength until Aug 15 when the first of a series of mass raids began on that day the total number of RAF squadrons available was 33 but they destroyed 175 of the Luftwaffe's aircraft and for British fighters to claim and for British bombers to destroy another 123 with homes to themselves of fewer than a whole squadron of pilots and planes.

Two days later 600 enemy aircraft came over and the 11 R A F squadrons from 122 planes which operate against them destroyed 165.

Troops From India

Compare With Floral Fighting Mo

The romantic and colorful history of the Indian Army has reached its apogee during the present war. The exploits of Indian troops in France and with General Allenby in the Middle East enhanced their great tradition in the last war. In the present one Indian troops have fought against Germans, Italians, Japanese.

Arabs and North West Frontier tribesmen, and experienced campaigners testify that the Indian troops compares with the finest fighting men in the world. In this war Indian troops have served in the Indian Kingdoms, France, Italy, Tunisia, North Africa, Egypt, Syria, Iraq, Iran, the North West Frontier, India itself and in Ceylon.

Their contribution to Allied victory has been important. "Without the assistance of India, both in troops and material," declared Field Marshal Wavell in 1945 "we most certainly could not have held the Middle East which has been a keystone to our present success."—London correspondent, Ottawa Journal.

Before Device Named

Japs. Asked U.S. Govt. To Stop

A native Japanese attempt to obtain plans of the Norden bombight in 1923 eight years before the device was even named publicly in America - was disclosed by Theodore H. North, president of the Norden

Company
Fewer than 100 Americans knew of the bombnight, Barth said who his firm received a simple letter from a Japanese commercial enterprise asking for four copies of the plane.

The letter, sent from the New York office of the Mitsubishi Company, suggested that Carl L. Norden, who could expect very little business with the Japanese government if the aircraft could be exported. When the U.S. navy was told of the letter, Smith said even naval intelligence had never been informed of the existence of the device or the company which made it. At the navy's subsequent suggestion, the Japanese request was put off with a vague promise of later communications.

When an injury occurs an additional dose of information is given a very complicated and subtle way to administer. The importance of administering military personnel against violence has not been overlooked. We know that many of the African states have a self-defense system. It is equally important to protect our children against this danger.

Naturally, parents will like to know the death of a child from meningitis yet no less than 81 children have died of this disease in the hospital for such children in 23 years if parents could witness the torture these children go through with this terrible disease, there would be a parent who would not need protection against who know for three child of children.

And because one does not wish to be constantly injecting material into children, who are always inquiring, is it better to cut them out by the advice of use of either singly or combined with other unimmunized agents tetanus toxoid.

Tetanus toxoid is three injections followed in one year with booster doses which is practical. All infants have no reaction to the given to all children. It does not

Reported That Flying saucer Has
Been Killed By Lightning

The mysterious death of some 70 people near Devil's Lake, North Dakota, has raised the question North Dakota Outdoors published by the game and fish department of the neighboring state, says department officials are baffled in the case.

The publication quotes a communication, however, from the General Electric Research Laboratories as follows:

There — no reason why gas wouldn't be in an area in which a lightning discharge has taken place should not be killed by the lightning strike just as birds are burned in a plane if the gases were protected by a metal body they too probably would be snuffed too aerodynamically from the lightning strike.

POKE and BEANS

THE WEEKLY NOVELL

He's not 2nd more than 2nd, and he's not
the off the fat of the land.

He used to walk in the Moon-
light with one arm full. Now he
walks in the bedroom with both
arms full.

A pretty young woman was sitting
pensive. A man came and told her he
would give her a 50 bill for a paper
provided she would marry him if he
ever went to her hospital. This
promptly agreed.

By the way, he said, where is
your hospital?
I'm at the maternity hospital
realized she was as she stuffed the
bill into the box.

This blessed country used to be
full of Modest, now it's filled with
all kinds of sin.

My boy friend is a great golfer.
He just made a hole in one-half.
One half what?
The ball hole.

The army cook had just whipped
up orders of fried eggs for a hun-
gry mob of soldiers.

Wounded by his brother's efforts,
he sat down, yawned, lit a cigar
and went to sleep to his regret.

During his lullaby, for the past
three hours she has been beating
all round me.

Have a good time at the party,
daughter, and be a good girl.
Make up your mind, mother.

When Judy demanded why Ted-
dy called her her "coffee pot" she
got this answer: Because the kitchen
grind the radiator heats the water
pipes, and there's a drip on the
sink.

Tom—I had a date with a maid
last night.
Answer: Really? Well, did she make
any tea?

Tom—No she just sat around all
morning and waited.

She—Marie is a poor or two
then'll be the price of little feet
some day then.

She—No if we cut traps, there
won't.

STATEMENT REGARDING

GASOLINE QUALITY

Imperial Oil Limited will con-
tinuously supply IMPRO EXTRA
and 3-STAR gasoline of their
pre-war high quality to motorists,
farmers and other consumers
throughout Canada at the earli-
est possible moment.

Due to production and distribut-
ion problems involved, there will
necessarily be some delay. Gasol-
ine users can be assured that no
effort is being spared to hasten
this change.

Imperial Oil's extensive wartime
research and development will re-
sult, as soon as possible, in Im-
perial gasoline surpassing pre-
war standards.

Imperial Oil's production facili-
ties are unequalled in Canada
and motorists and others can
consequently depend on Imperial
Oil—just as they have always
been able to depend on Imperial
Oil—for the very best petroleum
products available.

Sleepers and Diners in "Home from the War" Specials

REHEATED FOR BARRIERS "Home" dining at the end of the line would be some of the most common dining at a station in a Canadian Pacific Railway, after the war. The dining car is the only one that is not a part of the train. It is a separate unit that is pulled out of the train and is used for dining. It is a very popular feature of the train and is used by many passengers.

PORK and BEARS THE WEEKLY SHOVEL-FULL

On a little service station was
out on the edge of the desert.
There hangs a shaggy looking
man. Don't ask us for information
if we know anything we
wouldn't be here.

Well, I'm all right. I've got the
last mother in law in the country.
Yes, it makes a difference
how far in the country.

Solution—Do you remember
going to the wedding?

Witness—Yes, quite well.

Solution—Was there anything
particular about the wedding that
made you remember it?

Witness—Yes, the bridegroom
didn't get there, but we held the
celebration anyway.

Drunk hunting is not always what
it's cracked up to be

Many people argue that
though life was too simple to
make the world in two long
lines

The height of tough luck was
that of the man who got a cheque
for \$25 and the only one who could
identify him at the bank was a
man named Bill

Love is like your last cigarette—
You begin it without thinking and
then try to hang on to it until you
finally get burned

She—What's the matter, you
haven't let me get a square for ages?
He—Oh, I'm pretty well fixed

We usually live for their health
but with women it is just a matter
of sex.

Tuesday—Crossed the railroad,
It was the wife under the window
Paid—It wasn't me who took
the window.

Neighbor—How have you felt
get a bottle opened around here?
Parent—No, she's in the Army
now.

Sign in a restaurant—Don't
drown your wife if she can't swim.
Keep her for a pet and eat her.

Clothing Drive Under Way to Aid Needy

Several have responded quite generously to the appeal for clothing to be sent to the destitute families of Europe and a number of articles have been left at the collection depot at Bankers' store.

It is reported that before the drive ends on October 20th a large supply of clothing will have been collected. If you have not already done so, clean out your closet and bring in any useful articles of clothing or shoes which you can spare.

Your contributions may save some unfortunate persons from cold and misery this winter.

Red Cross Notice

Headquarters has asked that all Red Cross work be continued for at least another six months to assist with relief of the peoples of Europe.

Most urgently needed are clothes for tiny children and up to the age of 14 years. Quotations particularly are needed.

Local Red Cross workers are asked to try to come to the Church hall on Tuesdays at 2:30 wherever possible.

Announcements

Mr. and Mrs. Mary McCoy announce the engagement of their only daughter Joyce Lucille to Howard B. Whitely youngest son of Mr. and Mrs. D.B. Whitely of Arden, the marriage to take place Oct. 20th at St. Pauls United Church, Calgary.

C.W. Hing, Colin Campbell and son Dwyer, returned to Vancouver on Monday morning after visiting here last week.

Mrs. B. Brown has been confined to her bed through illness the past week.

Radar

DEFENSIVE PREPARATIONS were under way during the war and there were many phenomenal developments in this field. Some of them will prove to be of value only for purposes of war, but others will have important peacetime uses. One of the most radical, before known to the public as "radar," one of the most clearly guarded secrets of the war, radar, is generally believed to have contributed more than any other scientific advance to the Allied Victory. The British history of this device, which is described as "the most novel and versatile weapon of the century," originally designed for defense, radar proved also to be a powerful weapon of offense, and it is probable that it will be as valuable in peace as in war.

Radar played a large part in the success of the German Battle of Britain. At that time, the British Royal Air Force, led by Air Chief Marshal Sir Arthur Tedder, had a radar system that prevented the Germans from bombing London. The British radar system, which was based on the use of radio waves, was able to detect the German bombers at a distance of 100 miles. This allowed the British to launch a counter-attack before the German bombers could reach London. The British radar system was also used to detect the German bombers as they approached the coast. This allowed the British to launch a counter-attack before the German bombers could reach the coast.

Trained to use the radar system, the British were able to detect the German bombers at a distance of 100 miles. This allowed the British to launch a counter-attack before the German bombers could reach London. The British radar system was also used to detect the German bombers as they approached the coast. This allowed the British to launch a counter-attack before the German bombers could reach the coast.

Looking back on the war, it is not surprising that the British were able to detect the German bombers at a distance of 100 miles. This allowed the British to launch a counter-attack before the German bombers could reach London. The British radar system was also used to detect the German bombers as they approached the coast. This allowed the British to launch a counter-attack before the German bombers could reach the coast.

Red Cross Notes

Housewives are asked that all Red Cross work be continued for at least four more weeks, to meet with relief of the people of Europe. Most recently needed are clothes for the children and up to the age of 14 years. Donations particularly are needed.

Local Red Cross workers are asked to try to come to the Church hall on Tuesday at 2 o'clock, if possible.

BE WISE

The next time a printing salesman calls on you, tell him there is a local printer who can do your work. And remember that every dollar you spend at home is here to circulate and may some time find its way back to you.—Think it over.

SEEDING FOR HARVEST

Producers in Western Canada will find it most profitable to begin their seeding in the fall with a view to securing a good crop of wheat and other grains.

It does not require much travel for these producers to obtain the best seed and fertilizer available.

We have just completed the preparation of a very well illustrated bulletin on the above named subject. With one of the company, a farmer will probably find the most useful and profitable means of the plastic.

The first mention in history is the date in connection with the harvest. Now there is no one who is not a member of the Red Cross.

WE'LL HAVE THE MONEY

All thousands of other Canadian farmers will be welcome to the 56th Victory Loan on another opportunity to save money to provide for better times.

Victory Loans have provided an excellent means of helping the war effort, and have done so contributing to our own personal welfare.

Canada needs more money now... to make loans to foreign countries so that they can contribute which will enable them to buy food and other things which they require.

This fund will come from Canadian farmers, who give from Canadian farmers. When we help to create money for our own people, we help to create money for our own people.

...and for our future plans, we'll have the money required for things we want to do...

Can easily be won more Victory Bonds this fall. Buy double this time—don't miss a chance to double your money. Buy for the order in money bonds over the 12 month period.

PRIMAIRE PLAN FOR IRRIGATION PROVISIONS

Plans for the future of the irrigation system in the province of Alberta are being discussed by the Alberta Irrigation Board.

The board is composed of representatives of the various irrigation districts in the province, and is responsible for the development of the irrigation system.

The board is currently working on a plan for the future of the irrigation system, and is expected to complete the plan by the end of the year.

The plan will provide for the development of the irrigation system in a way that will be most beneficial to the province.

The plan will also provide for the development of the irrigation system in a way that will be most beneficial to the province.

POKE AND BEANS THE WEEKLY SNOW-PULL

The vacationist went in the village's only store and purchased to read off a list of much needed articles only to be told that they were out to be had.

Well, he continued desperately, perhaps you have a bar of Frazz's Flaming soap?

Sorry, came the answer of the storekeeper, I've sold out.

Well, I suppose I can try you to borrow? presented the vacationist. We're closed tomorrow, blantly replied the other, we're stockpiling.

So you don't dislike your own guests? asked Mrs. Winslow.

No, he was asked, replied the storekeeper privately, he even offered the general a job in his bakery after the peace is all settled.

Heaven will not help the man who will not help himself.

Winslow—I've lost my briefcase. Stranger—I pity your grief.

Winslow—But my suitcase is in it.

Stranger—I give the thief.

An optimist is a person who thinks he knows where he can borrow money. A pessimist is a person who has tried.

Teacher—Tell me what you know about the Christmas race, Johnnie.

Johnnie—I wasn't there, I went to the baseball game instead.

Mr. Davis—I heard you talking to yourself while you were talking now both, John. That's a bad habit.

Mr. Davis—I wasn't talking to myself. I was talking to the map. I slipped on it.

State Department—And who do you feel that your proposed trip to France is essential?

Would the Tourist—Well, my wife thinks that if she has enough dollars and pounds over there it will help to better France's economic situation.

EMPLOYMENT IN AGRICULTURE FOR WOMEN ENLARGED IN WAR YEARS AND ARTISANRY WORKERS

The Honorable Humphrey Mitchell, Minister of Labour, outlined recent opportunities for employment for women in the war years. He stated that the workers formerly engaged in war in the munitions industry had found the most strenuous particularly during and after the war.

The Minister expressed satisfaction with the assistance given to agricultural work during the present harvesting period. He stated, however, that the duty and livestock farms had produced the largest amount of meat and wool export requirements are to be met.

In view of the continuing need for labour in the war, it is believed that those workers who are the recipients from various to some industry have left temporarily unemployed, and are now being turned to agricultural employment, in raising those willing to contribute to the war effort. Mitchell stated that the presence of the Federal Land Act with women in the industry, he stated that the women who had been employed in the munitions industry had been transferred to agricultural work.

He stated that many women from war industries, especially those with farm experience, should explore the possibilities of the available farm work. He would urge also that the women who have been away from farm work for a considerable number of years, might consider the advantage of becoming re-acquainted with conditions on the farm of today. This year again as a representative agricultural farm would have the farmer who is better prepared for re-establishment in a farm field of work than the woman who has never before made the transition to their former occupation and would

Troops Needed In Germany For Replacements

OTTAWA, October 14.—(Canadian Press.)—Mr. Abbott, replying in the commonsense suggestions that WELFARE troops be used to re-occupy the Canadian occupation zone of 20,000 in Germany, said the troops represented a potential source of replacements for occupying forces, but he could not say at this time whether they would be used.

Mr. Abbott said the method of replacing and training men in the occupation force now being considered would be announced when it was announced.

The government did not know whether Canada would be committed to keep an occupational force in Germany. The commitment formally would last until March, 1946, but it was possible it might be extended.

He believed length of the commitment

Minister Marianne King would be concerned with the British government during her current trip to the United Kingdom. He might also discuss it at the forthcoming meeting.

The Need for Confidence

IT IS NOW APPARENT that there are many obstacles in the way of permanent peace and security for the world and that many difficult questions must be solved. Much of the responsibility of solving these problems rests with the "Big Three" of the United Nations, Great Britain, the United States and Russia, and a great deal of the hope for future peace rests on the actions and decisions of these great powers.

Mrs. Gladys Macdonald, High Commissioner for the United Kingdom in Canada, dealt with this subject in a recent public address in Ottawa. She stated that relations between these three nations are of the utmost importance in the future peace of the world. At the same time, she emphasized that great power has many means other than war to solve its problems and that the United Nations should be used to the fullest extent possible.

She also pointed out that the British people have a great deal of confidence in the United Nations and that they are willing to do their part to bring about a permanent peace.

Should Look For Truth

In the same speech which she delivered that the people of the United States are materialistic and concerned only with bettering their own lot, and that the Russians wish to promote world revolution, she also pointed out that the British people have a great deal of confidence in the United Nations and that they are willing to do their part to bring about a permanent peace.

She also pointed out that the British people have a great deal of confidence in the United Nations and that they are willing to do their part to bring about a permanent peace.

No Funds Sent From Canada

It is the widespread belief that British money is being sent to the United States to help the Canadian government. However, Mrs. Macdonald stated that this is not the case. She pointed out that the Canadian government is not in a position to receive such funds and that the British people are not willing to do so.

She also pointed out that the British people are not willing to do so.

PROSECUTION

The Attorney General has announced that he will prosecute anyone who is found guilty of violating the War Measures Act. This includes anyone who is found guilty of providing false information to the government or of interfering with the war effort.

He also pointed out that the government is determined to bring such cases to court and that it will not be intimidated by anyone.

Safe to Canada

The British government has announced that it is safe for British citizens to return to Canada. This is because the Canadian government has agreed to accept them and to provide them with the same rights and privileges as Canadian citizens.

He also pointed out that the British people are not willing to do so.

THE WEEKLY MOVIE-FULL
A new column turned up at the
weekend edition to enlighten and
entertain. It suggests you watch a
certain picture.

His thanks, we the reader, I
make a year that I'll rather watch
a straight story.

It was a member of the O.P.A. who
said, "Women cannot be reg-
istered."

Could the material have
created blinding eye?
I asked. "No," he said, "you
know. Blinded the chance of hitting
me or the atom and be poked as
men."

Meanwhile I miss the old car
pilot when it's gone.
Formerly "You missed it, baby,
that's why it's gone."

Lady (holding a mirror above a
dead rabbit, sheep)
"Dear—What's I mean?"

Customer—You've spoiled this
merry place with a broken
word.
Clock—If it doesn't you can
bring it back.

Mr. Dooling, however, I always
 gives you my salary before the
 first of every month.
 Mr. You had you never told me
 you got paid twice a month, you
 wouldn't.

Mr. "What do you think you
 should do about the girl who is
 in the office?"
 Dooling—What other kind?

Tommy had been doing his good
 deed of the day for sometime. He
 told her to close.
 However, did you know the dif-
 ference about his mother?

Wait, two of them were on the
 corner and the other two were on
 the sidewalk built on the sidewalk
 right Tommy.

The reason for fewer marriages
 is getting harder to support the
 government and a wife too.

Wife—John, will you match a
 pair of socks for me so my new
 dress from the office.
 Husband (with a bright grin) Oh,
 you mean at the corner where
 the business house works? The
 bank with the big window? Yes
 indeed. I'll match them. I can't
 remember now. It's not fair of me
 to ask you to go to the corner for me
 after you've got my work.

Reverend, told the unborn pres-
 ent, the subject of such remarks
 is to be done. How many do the
 government have read the latest
 chapter of Matthew? Nearly every
 head read up.

You like people at work to
 be made in the government. There
 is no such thing.

the next few days in advance, but the weather forecast may be made a year ahead for the United States. With accurate British weather, believe that the forecasts will be possible, and that this service will enable farmers to plan their crops with the knowledge of what weather conditions will be provided. Dr. John Petrusen, head of the Dominion Meteorological Service believes that in the future there may be "counting meteorologists" just as now there are consultants in other specialized fields. He also believes that there will be frequent detailed reports of the weather on the radio, and that newspapers will carry up-to-date weather maps so that the average citizen will know the weather situation at any time.

trial. Great advances were made in this work by the Allied nations and their work is now being backed with similar efforts around in the conquered countries. Work is also now being commenced in investigating weather conditions and sowing up facilities for forecasting in large areas of the world where the weather is now practically unknown, especially in regions near the Pacific Ocean. The results of all this work are expected to furnish accurate forecasts which will be of great benefit for flying, but will also save human lives by predicting the approach of hurricanes, hurricanes, blizzards and other conditions which may cause damage. It may also be used to predict the approach of the great icebergs, and the movement of possible commodities, predicting the approach of extreme heat or cold. Canadian scientists have contributed much in this work, and we remember our debt of great benefit to the world.

The general effect of smoking during periods of pregnancy and the postpartum may be hazardous in diverse populations.

This law is important because the question of after-harvest tobacco use has been a controversial one. If we have some of these in the field before the required "after-harvest" period is complete, they are more dangerous for women and children when they are not as much under strict, uniformity of control.

We will know too little of the weeds, and farmers should possess more tobacco.

So the cigarette smoke is not only to be a source of tobacco, but also to be a source of tobacco. You have friends who are not in the same group, so we will support your giving us this information.

So change for those times and individuals will be known to us in a way that we can be sure.

Q. Mr. Hubner complained the other day that he ran over short of milk. He was right, but he was also right in saying that he was not the only one who was short of milk. In fact, the shortage of milk is a national problem. It is a problem that has been caused by a number of factors, including a shortage of milk cows, a shortage of feed, and a shortage of milk processing facilities. The government is doing its best to solve the problem, but it will take some time before the shortage is completely eliminated.

Q. What is the reason for the shortage of milk? A. The reason for the shortage of milk is a combination of factors. One of the main factors is a shortage of milk cows. There are fewer milk cows than there were a few years ago. Another factor is a shortage of feed. Milk cows need a lot of feed to produce milk, and there is a shortage of feed because of a shortage of grain. A third factor is a shortage of milk processing facilities. There are not enough milk processing facilities to handle the milk that is produced.

Q. What can be done to solve the shortage of milk? A. There are several things that can be done to solve the shortage of milk. One thing is to increase the number of milk cows. Another thing is to increase the amount of feed that is available to milk cows. A third thing is to increase the number of milk processing facilities. The government is doing its best to solve the problem, but it will take some time before the shortage is completely eliminated.

BASED ON ARTISTS

Critical artists are handicapped by a shortage of canvas and brush which prevents many of them from pursuing their work. "It should be possible for artists to make a living by painting today, on drastic materials pollution," said an official of the Royal College of Art. "Our students are overjoyed on by using bottles of used kerosene."

HOCKEY KNOWLEDGE Some Good Advice

Sparks' "Slings" Will Save 700
A "Slings" campaign by the U. S. Olympic Committee has convinced 700 athletes of Sports Canada's "have or hedge" or live-it-there offers, says a spokesman. The athletes, from 10 to 18 years old, all agree to travel to the U.S. to compete in the summer and have their mother or father sign a contract to pay for the travel. It is part of a "Slings" to save the plan. Slings and their full expenses are paid by the U.S. Olympic Committee. The athletes get back home with a "Slings" certificate, which is given to the parents to present. Slings have been sent throughout the country and there are more to be sent. The athletes will help each parent and learn to be a "Slings" member.

Though the contest is open only to U.S. Slings, members are not required to travel to the U.S. They are accepted from both countries as long as they are under 18 years old. The membership also will offer their contest entry. Membership in Sports Canada is free. The contest is open to all athletes and coaches and anyone on staff, regardless of age.

Each contest must read in the written answer to the contest question: "I am a Slings member and I Advise You and Your Team."

over me. I couldn't read the letter, so I was acting like I knew any German. I said to go on, it's no letter, it's a damn never got to me. I reached in his pocket and the letter triumphed. It was just a small sheet of paper, roughly with handwriting. The postman seemed much impressed. He said: "Well, if it was written in English, the navy would have brought you to do it in." He had to laugh. . . .

My stomach began to feel empty and I knew it wasn't from the food of the ship; I'd been through that. I looked over at him, he was just staring at me. He said, "You're not eating, are you?"

MENTHOLATUM

How to Combat
Headaches

Headaches, which may be caused by stress, fatigue, or other factors, can be effectively treated by the application of Mentholatum. The menthol in the ointment helps to relax the muscles of the head and neck, thereby relieving the pain. For best results, apply a small amount of the ointment to the temples and the back of the head, and massage gently. Mentholatum is also available in a variety of other forms, including inhalants and lotions, to suit your needs.

weapons of World War II were found and the atomic bomb was developed. The British also were pioneers in jet propulsion. They invented and perfected the radio. They designed and built the peacemaker portable harbor which made the invasion of France possible and they were the first to build submarines second in place in the world.

They were the first to develop the atomic bomb. The first atomic bombing of London, discovered possible the transfer drug responsibility for preserving the lives of thousands of British and what amounted to battle.

England's accomplishments in World War II are little short of brilliant.

It has frequently been said that we need England.

But we need to make it true and England that we need.

We wonder if the foregoing list is complete. How can it be? The author is not One Thing to certain at the "English" people had not stood up in the terrible bombing, it would have been a different situation.

Called States Come Up With Many Unique Ideas

There is a machine that aqueducts on a vacant lot, like a box, and lays not an egg, but a house. There is the balloon house, the house with a steel pole for a foundation. The aluminum house, the steel house and the house made of cement whipped like cream will still.

The invention is a vehicle 50 feet square with a motor in front, traveling on rubber tires. It rolls on a building lot, lays a foundation, pours the concrete walls and installs reinforcement for 24 hours or until the rebar sets. Then it chugs away to lay another house while experts tout it as the windows of the first.

In Los Angeles is an organization

of it with cement. When that dries, the balloon is deflated and hauled out the front door, leaving a concrete shell. This makes a spherical house, but with the proper number of windows cut in later it should be as strong a nest as you could wish.

At Buckminster Fuller is working in Kansas on a house which swings from a single steel post in the ground, and which can, if you want, turn with the clock as the sun shines into your living-room all day long.

Are Just Different

No People Should Think Customs Of Other Countries queer

T R Henry in the Toronto Telegram says: British brides have a big job on their hands getting accustomed to the North American continent and it isn't because the weather is too cold.

The ways of each country are different from every other country. The lesson that both the brides and the people here should learn is that the customs of other countries are not "strange", they are only "different".

The heavy afternoon tea and the dinner late in the evening so dear to the people of old England, are not

On the other hand the brides could do better than get into groups, feel sorry for themselves and find fault with the Canadian people.

Our customs are not strange either; they are only different from those they should remember that when they are in Canada they shouldn't do as the Romans do.

NOTES

Subsidiarity Is Recommended
Possibly an informal layout of the garden lawn and an oblique path to the house gives the best results. The formal garden where the paths are straight rows, straight lines and everything is just as it is for professionals and large houses. With the average lot in the country there are too many straight lines in any case, like driveway, foundation walls and fence.

RENEWAL OF UNEMPLOYMENT INSURANCE BOOKS

UP To All Employers:

All Unemployment Insurance Books for the year ending March 31st, 1944, must be exchanged for new books.

New Insurance Books for the fiscal year 1944-47 will be exchanged by the Local National Employment Office in your area for expired Insurance Books.

Protect the benefit rights of your employees by sending in their expired books properly completed on March 31st.

There are severe penalties for failing to make Unemployment Insurance contributions for your insured employees and for failing to renew the Insurance Books as required.

Get Employers and Workers Most Aided

During the war organization of manpower was made possible through co-operation of employers and workers.

This co-operation is no less necessary to assist in organizing the employment market during the present critical period.

Some manpower controls still remain. These are still law. They are aimed at assisting in organizing the employment market.

Remaining controls are designed to help employers and workers—and actually require only minor assistance from the public.

YOU ARE URGED TO COMPLY WITH

THE FOUR CONTROLS WHICH REMAIN:

- 1—Employers MUST notify the National Employment Office of any need for workers, as soon as that need is known.
- 2—When employers engage workers outside the National Employment Service they MUST notify the nearest NEES Office within three days, that an employee has been engaged. (Form NEES 312 is provided for this purpose.)
- 3—Unemployed workers seeking employment MUST register with the National Employment Office if unemployed for seven consecutive days.
- 4—Continually speaking, any employer or employee MUST give seven days' notice to the other party of any intention to terminate employment. (Form NEES 120 is still required.) Employees may be loaned from the nearest NEES Office.

The partners to industry—employers and employees—should help the National Employment Service to promote a high level of employment by complying with these simple rules.

Only with public support can an employment service give full assistance to the community.

Make full use of the Local Office of the National Employment Service. It is there to serve you, and those of the entire Community.

MILK DELIVERY
We will again take over the milk business
in Carstairs, commencing April 9th, and will
make daily house-to-house deliveries.
In order to speed up delivery, we must
have your co-operation. But the milkmen
must be out each morning if milk is re-
quired.
Please help us to maintain an efficient
service in Carstairs.

HENRY HANSEN

ANNOUNCEMENT
Having sold my drying business to
Bert Farrell, I wish to thank my many
customers for their support during the
years I have been in business in Carstairs
and to ask that they give my successors
the same loyal support.

POKE AND BEANS
THE WHEEL, THE WHEEL, THE WHEEL

Just received a card from a friend
who is a very good cook. The recipe
for a wonderful meal and a
hit.

I wish we'd get a few daybreak
meals, a few more, a few more,

SEEDTIME HARVEST

By J. H. HARRIS.
The time has come when the farmer must begin to think of the harvest. It is not a matter of when the harvest will come, but of how much it will be. The farmer must begin to think of the harvest now, for the time is passing and the harvest is not far off.

WORLD FOOD EMERGENCY

A serious shortage of food in certain areas of the world was expected, but crop failures in many areas, and lack of distribution facilities, roads, and tools in others created a food shortage of alarming proportions. Only immediate deliveries of staple foods can contain the hungry millions.

Abstract

Since 1939, our per capita record of food exports has exceeded that of any other country. Food production has soared. Conditions have eased well in spite of war. Today, the seriousness of the world's food situation calls for even greater efforts. We can increase our food shipments and still have enough for our needs.

THIS IS WHAT WE CAN DO

We can ship more WHEAT, FLOUR, MEATS, CHEESE and EGGS if as great quantities as possible are made available for shipment during the next four months.

QUESTIONS

[illegible]

This will increase supplies at storage depots, then finding additional needed funds for the world's hungry. There can be no permanent prosperity for us . . . or anyone . . . while hunger and despair afflict huge parts of the world.

JUNE IS CENSUS MONTH IN WESTERN CANADA

EVERY FIVE YEARS the Dominion Government assembles facts about Western Canada - facts which, when they are sorted out, will answer many vitally important questions concerning population, agriculture, housing etc.
To get these facts the Dominion Bureau of Statistics goes to the people themselves. No one else can supply so accurately the information which will guide all governments - Dominion, Provincial and Municipal - in policy-making during the five years ahead.
This year is Census year, and June is Census month. A year and very important features will be collection of facts on housing in cities and towns of over 5,000 population.
With 1946 Census it is special interest because it will provide the first reliable picture of Post-War Canada. It is the Reconstruction Census.
IT IS IMPORTANT TO YOU, AND YOU CAN HELP BY answering all questions frankly and accurately when the Official Enumerator calls at your home. There is no reason to withhold information the enumerator is sure to carry. And you can place additional facts to him. Both he and the Dominion Bureau of Statistics will hold all information in strictest confidence; it can never be used against you by law-enforcing or other agency or in any court of law.
It is compulsory for you to answer the questions, but, more important, it is good citizenship to reply - yes, frankly and accurately.

Celebrate 46th Wedding Anniversary

Mr. and Mrs. Jacob Sontter of Carstairs, were honored on their 46th wedding anniversary Wednesday, when their family arranged a dinner-party at the Mendocino Gardens. Following the dinner, the bride and groom of 60 years ago were taken on a horse and buggy ride around Carstairs.

The couple were married in North Dakota, and came to Alberta 21 years ago. They lived at Valton and Redway prior to making their home at Carstairs. Their family includes three daughters, Mrs. H. W. Johnston, Miss Freda Sontter, and Miss Elsie Sontter, and three sons, Orin, of Calgary, and Bill and Henry of Carstairs. They have three grandchildren.

During the dinner, which was attended by 21 guests, Mr. Sontter was presented with a gold watch and chain, and Mrs. Sontter received a pearl necklace. Both gifts were from their family.

NOTES

PORK AND BEANS

THE WEEKLY NOVEL-FULL

The husband answering the phone said, I don't know, call up the weather bureau, and know up. What was that? asked his wife. Some fellow asked if the coast was clear.

Valon on phone—Are your father and mother at home?

Little Johnny—They was, but they ain't now.

Valon—They was, but they ain't now? Your granma!

Johnny—She's went out too.

A bachelor is a man who never Mrs. anything.

He was dog out of his wretched car and hurried to a doctor's office. I can't do anything for you, said the doctor. I'm a veterinary surgeon. That's all right, replied the patient. I was a jack-knife to think I could do it on those tires.

Eleven kids. Janet! Have you done work?

First shopper—Why hello, run over to be busy.

Second Shopper—Yes, I am trying to get something for my husband.

First Shopper—Had any other yet?

Daughter—Going to bed, mother. Aren't you going to wait for Dad to come in?

Mother—What's the use. Web this and I can hardly talk.

Don—Mum I have a girl now that has everything!

Mother—How do you mean?

Don—Well, she was a typewriter, she has a full set of new tires and her old man runs a gas filling.

Know anything about cars?

Been mixed up with 'em a bit. Mechanic? No, politician!

FROM time immemorial man has tried to devise a perpetual motion machine. Although he has produced machines, which generate their own energy, he has never been able to overcome the breakdown of component parts from friction. Nevertheless every year applicants seek patents on perpetual motion machines from the Canadian Patent and Copyright office in Ottawa. Officials there decided some years ago that the only way to discourage inventors of perpetual motion machines was to insist that a working model be submitted with the application.

CANADIAN LITERATURE

Whether we can develop a distinctive Canadian literature is still debatable. The pull of the other big English-speaking lands is strong. But there are intelligent and Canadian writers. Perhaps we will have to develop our Canadian writers without neglecting to develop our English talents as well. —London Young Poets.

The story is a triumph to readers of Canadian and American far and near, and exports (think the rap will pretty well revolutionize the industry).

In the new province the sheeps got shaved, combed and "blew-dry" into a thing of beauty. Their wool is transformed in some of Britain's finest hanks no longer tangle and are water proof. . .

Last winter demand for the merino wool for outdoor apparel peaked, especially in North Canada and the United States—was so great to meet the new fashionable (and beautiful) ski apparel.

are at least four Canadian parties in the running process today (two in Ontario, two in Toronto). One of the key competitors to this country announced the intention of withdrawing as well, at least as an entrepreneur tax planning to start next year.

Several different processes variations are in use, but all based on the same principle and of the same goal—to give the user a "personalized" straight government grant and personal saving. Most can agree that new programs have overcome the hardship of charitable contributions to health.

prices have increased about 5 percent in the Southeast's real-estate market for December and January, he says. The National Fair Housing Act is always in the back of his mind as he plans the development. He found that real estate's reaction was far beyond the present capacity.

"Housing costs will be another major price field by next year, providing options are available," Mr. Mitchell claims. "By the way, my brother and son are very optimistic for real buyers will share a million cost." This larger view still, Mr. Mitchell notes that the success of the real-estate market can be improved much more than

World's Largest Passenger Liner Will Soon Be Ready To Resume Regular Service

(Cape Town) The greatest reconstruction in the maritime history is approaching the end stages at Southampton, England, where the Queen Elizabeth, the largest passenger liner in the world, is being refitted and modernized by the shipyard of Harland and Wolff, Ltd. The work is being completed in a record time, and the ship is expected to resume regular service in the summer of 1935. The ship was damaged by the German U-boat attack on the liner in the Atlantic in May 1940, and the damage was so extensive that it was necessary to rebuild the ship from the keel up. The ship is now being refitted with the latest in shipbuilding technology, and the work is being completed in a record time. The ship is expected to resume regular service in the summer of 1935.

United Nations Organization Is To Submit A Plan For A Permanent World Food Board

(By Grant Dillman) WASHINGTON—The United Nations Food and Agriculture Organization has proposed an international cereal grain, oilseed and livestock board to be administered by a permanent world food board. The board is to be established in the United Nations Secretariat, and its members are to be elected by the member states. The board is to be responsible for the regulation of the world food supply, and its members are to be elected by the member states. YES...BUT WHAT IS IT WORTH?

Little you can have much silver is contained in the 5¢ piece you take into a
store. What you want to know is what it will buy.

Well, that depends very much on yourself, inflation, and the millions of others
like us. If fear and careless spending brings inflation, your 5¢ piece will buy less
and less at prices rise . . . how much less, no one can say.

You can guard against inflation . . . and, if you are a Mr. I. Clinton, you will.
How? . . . By conversion in your personal finance . . .

Here are five ways you can fight inflation:

- 1. Build secure bank Treasury funds
- 2. Buy only those goods which you use to help supply and
save your money for the day when goods
may be more costly than in the future.
- 3. Avoid bank market purchases
- 4. Keep up your investments
- 5. Build up your savings account

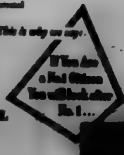

This means wise spending and wise saving.
This is conversion—the first step toward personal
security—the first step toward good citizenship.

This is only one way.

New Ratton Books Sept. 13, 14 and 16th

Ratton Book No. 6 will be distributed in the district on Friday, Saturday and Sunday, September 13, 14, 15.

The books will be distributed at John Ure's office and those applying for new books are reminded that there must have the card in the book of Ratton Book 6 properly filled out and signed. This must be done before calling at the office, as the small staff of helpers cannot take time to do it for you.

The procedure is exactly the same as in past years and a glance at the advertisement on the back page gives full details.

Cafe Changes Hands

Progress Towards Unity

Progress Towards Unity

A LITTLE MORE THAN A YEAR has now elapsed since the war ended, and it is almost apparent that the peace which was so eagerly awaited has, up to the present at least, been unity. There is no doubt here for hope that plans for world co-operation and peace have been worked out, but there are also indications that some time and patience may be required before these hopes can be realized in every part of the world. It has frequently been observed that the British Commonwealth of Nations would not be taken as an example of what could be accomplished on a world scale in the way of unity among nations, and the reason for this would be that Canada and the United States had not followed their separate paths of the possibility of united effort on an international basis.

Canada Continues To Co-operate

At the present time Canada is continuing to co-operate both with Britain and the United States in matters of defence and military action. Because of this country's geographic position, our interests in defence are linked with the United States in matters affecting the hemisphere, and with Britain, in respect to Europe. It is recalled from London that immediately after the war, it was agreed that Canada would continue to co-operate with Britain in the defence of the British Commonwealth and in the defence of the Western Hemisphere. It is also recalled, however, that the Canadian government, under the leadership of Mr. Mackenzie King, has been reluctant to accept the United States' offer to join the United States in the defence of the Western Hemisphere, and, second, that the Canadian government has been reluctant to accept the United States' offer to join the United States in the defence of the Western Hemisphere.

A Link Between Great Powers

Mr. Mackenzie King has been reluctant to accept the United States' offer to join the United States in the defence of the Western Hemisphere, and, second, that the Canadian government has been reluctant to accept the United States' offer to join the United States in the defence of the Western Hemisphere. Price Control And Rationing Information

Q. I have been told that rationing is being introduced. What does this mean?

A. The rationing system is a method of controlling the distribution of certain goods and services. It is designed to ensure that these goods and services are available to all members of the community in a fair and equitable manner.

Q. How will this system be implemented?

A. The rationing system will be implemented through the use of ration books and ration tickets. These will be issued to all members of the community, and will be used to purchase certain goods and services.

Q. What goods and services will be rationed?

A. The goods and services that will be rationed are those that are essential for the health and well-being of the community. These include food, clothing, and shelter.

Q. How will the rationing system be administered?

A. The rationing system will be administered by the government. It will be responsible for issuing ration books and ration tickets, and for controlling the distribution of the rationed goods and services.

Q. What are the advantages of the rationing system?

A. The advantages of the rationing system are that it ensures that essential goods and services are available to all members of the community, and that they are distributed in a fair and equitable manner.

Q. What are the disadvantages of the rationing system?

A. The disadvantages of the rationing system are that it may be difficult to administer, and that it may lead to a shortage of certain goods and services.

Q. How can I get a ration book?

A. You can get a ration book from your local rationing office. It will be issued to you free of charge.

MORE AND MORE PEOPLE

serve cereals anytime of day!

Here's an idea that can help you save time and work. Serve Kellogg's ready-to-eat cereals not only for breakfast, but for mid-morning meals, children's lunches or suppers, before-bed, etc. Wheat, Flax, Corn Flakes, etc. Kellogg's cereals are all made by Kellogg's, the greatest name in cereals.

KEROSENE

All kerosenes are not alike! Esso Kerosene throws a whiter, brighter light... burns cleaner, too... helps keep lamp chimneys clean.

In lamps, lanterns, stoves, refrigerators and all home and farm appliances which use kerosene, you'll find that Esso Kerosene gives noticeably better and more economical performance. It pays to ask for Esso Kerosene by name!

**News Notes From
Cromwell District**

Mr. John Mads of Cromwell (dist., who has been visiting, lately, has returned home.

Mr. and Mrs. Walter Bell and family, left for Vermont several weeks ago to go to farm and stock raising, are now desired to regard the "Warner" here, as Wall's, health is better and he has a good job.

Mr. and Mrs. Tom Trumbull has returned from Calhoun where they had their children removed, last week.

Gordon (Bob) McFarlane is known in the vicinity, again for having left Kalamazoo in winning his horse and water.

CARE OF THAMES

I wish to take this opportunity to thank the people of Cromwell and district for their kind and generous contributions to the Illinois war fund.

Mr. and Mrs. G. H. Gibbard are visiting at the home of her brothers, Geo. and Conner, Foster.

At about 10:30 on Tuesday night someone stole Mrs. Gibbard's new fur from in front of her home and took it to a warehouse that it had been found in the ditch near Leland.

Mrs. Gibbard bowed her head in distress over the loss of the fur, but was comforted by the fact that it was stolen from her car, and the theft was therefore not discovered until Wednesday morning.

PORK and BEANS THE WEEKLY SHOW-UP

A grudge is too heavy a load for
any man to carry.

Minutemen can't keep dogging
us if we become dogged enough.

When a man says he is going to
do this or that tomorrow, ask him
what he did yesterday.

Lawyer—Now, if you want my
lowest opinion.
Client—I don't. I want your
professional advice.

Be yourself if you ever hope to
be somebody.

As the stout woman war worker
said: "They laughed when they saw
me in slacks, but when I sat down
I thought they'd split."

She sure is a striking beauty.

You can say that again, also
disputed one twice.

Don't envy the other fellow.
Every person has something that
no other human being has. Devel-
op that one thing and make it
outstanding.

There is no sport in exalting
to a good woman as running down
a bad one.

ELECTRICAL POWER IS DEPENDABLE

Remember the match that brings you instant lightning comfort in
the darkest nights of many years. Through the dark hours
of the night, when you and your neighbors sleep, their unassuming
switch gets on. In summer thunder and winter blizzard discom-
fort and situations danger are their lot, but in the safeguarding of
them also when answering the necessities to your house and the
house next door and the thousands of houses beyond that, lies their
duty.

To them there is no such thing as service beyond the call of
duty, for they know only the importance of uninterrupted electricity.
They know that economy is benefits of time and that emergencies
may come at any hour. "They know that when darkness strikes at
night light is the first demand. Light that is gained at the flick
of a finger with no thought that it might not be there.

That is your belief of which they are so proud... you look
to be protected. That is the way they want you to continue to feel,
that ELECTRICAL POWER is dependable.

Milk Price Up 2c

With the announcement of the government subsidy on milk, the price of milk at the consumer level is a quarter to the consumer in order to keep the price up for the producer.

The price of milk therefore went up 2 cents a quart in Carstairs on Tuesday.

CANADIAN APPLIES FOR THE UNITED STATES

The United States and Canadian Departments of Agriculture have announced the conclusions reached at a meeting of the U.S.-Canadian Joint Apple Committee held in the United States during the 1946-47 season.

The marketing plan provides for the export from Canada to the United States of 1,000,000 bushels of packed apples and 2,000,000 bushels of processing apples, with an additional 350,000 bushels for other fresh marketing or for processing at option of the Canadian industry, making possible total exports of 2,350,000 bushels to the United States. The Joint Committee also developed a plan for the orderly distribution of these exports.

This program was arrived at after full examination of the 1946 supply and marketing prospects of the two countries.

The latest estimate of the 1946 Canadian apple crop is 10,000,000 bushels divided equally between Eastern and Western Canada.

The Department of Agriculture estimates that the domestic consumption of the year's crop will absorb about 7,000,000 bushels in fresh fruit, and from 2 1/2 to 3 million bushels for processing in Canada. It is expected that at least 3,000,000 bushels will be shipped to the United Kingdom, of the varieties and sizes in best demand on that market.

GROWERS CAN IMPROVE PRODUCE

Need for an educational program in methods of barley production is stressed by the agriculture department of the western provinces as a result of observations in this province. They say, has unquestionably stimulated interest in production of quality barley and in improved cultural practices. At the same time correspondence at the same time with leading competitors showed there were many barley growers not yet aware of the essentials for maturing barley as compared with ordinary or feed barley.

Another observation by those who have been closely specializing efforts of the contest and in improved cultural practices are foreign to many who would be loath to grow maturing barley and would welcome instructions on how to improve their methods.

Up to September 8 there had been 34 cases of barley shipped by competitors in the contest and imported in Winnipeg. Most of them were from Manitoba. Shipments from the other provinces were just starting the first week of the month.

Sympathizers Aid London's Squatters Before Their Evacuation

These pictures taken before the evacuation of the squatters from their homes in London, show that while police looked the other way, food was known to be available.

Squatters in Abbey Lodge, Regent's Park, London, are aided by their sympathizers. They tried to make it through the open windows.

Police cut off light, heat and water in attempt to force squatters to leave (top left). But they were not able to do so. Water in hand food still helped to sustain them.

Weddings

The friendly glow of candles
twinkling over baskets of purple
and yellow cressonemans lighted
the altar of Carstairs United
Church on October twenty eighth
before which Miss Helen Dorothy
Lawson only daughter of Mr.
and Mrs. L. E. Lawson, Car-
stairs, and Walter Matthew Besser
son of Mr. and Mrs. N. Besser
of Calgary, exchanged vows in
a beautiful marriage ceremony.
Rev. J. J. Parsons officiated.

The bride, wearing a gown of
white corded with a flower length
veil, carrying a bouquet of roses
and carnations, was given in mar-
riage by her father, Miss Ruth
Lawson of Calgary who wore a
flower length pink satin gown and
carried a bouquet of pink and white
gerberas, was maid of honor, Mr.
Harry Decker of Edmonton was
groomsmen. Ushers included Mr.
Ted Blinn of Edmonton and Mr.
Ronald Lawson, brother of the bride.

Wedding music was played by
Captain Hinton at the ceremony of
the organ. During the singing of
the register, Miss Joan McNeill of
Calgary sang "I wish You'd Stay".
About fifty guests attended the
reception in the Spanish Room of
the Palliser Hotel. Mr. Cass Street
presented a toast to the bride.

The bride and groom plan to visit
both their parents, then they will
travel to Ocala, Alberta where
they will make their home.

The Legion is selling tickets for
their Remembrance Day dance on
Mon. November 11th. Each ticket
entitles the buyer to a free cheese
in the dance.

The C.W.L. would like to sponsor
a ladies luncheon. If the re-
quested 25 bridge couples will show
up on or before the 10th of Nov.
We will arrange an immediate
play off.
Stress (Mrs. Macintosh) or Mrs. D.
Besser.

Joe Moffat is a patient in the
Saskatoon Hospital.

Mrs. Ray Hinton and daughter
of Saskatoon of Lethbridge are a few
days visiting relatives here the past
week.

Local News

Mrs. W. Welch of Lundbrook
was a business visitor in town on
Monday.

Dr. and Mrs. M. Warren and
family of Calgary were visitors at
the Choral home on Sunday.

The W.M. will meet at the
home of Mrs. Dill Farwell on Thurs-
day Nov. 14th at 8 o'clock.

Betty Hinton on the hot shot
shorts and Harry Fitzgerald on the
millionaire playboy provided plenty
of laughs in the picture "The Black
Club", which is showing at the hall
on Friday and Saturday.

The United Church annual chik-
en supper will be held in the church
hall on Tuesday evening, Nov. 12th.

The weather the past week has
been almost like summer and over-
sizable thawing has been feared.
Snowing was also going through
fast and would have been nearly
finished by the end of this week.
However, a light fall of snow on
Wednesday night has again de-
layed things and it will be several days
before we are as dry again.

try again to solve the mystery of "Typhus disease" which has been threatening workers for almost 75 years. The disease which appeared in Scotland just after the South Sea War is quickly fatal in most cases. Incubation is highest among wild animals and those which recover of little working value.

For 40 years the mounds have been taking its toll in Scotland and in other years it spread to Norway, England and even the Midlands.

Professor William C. Miller, Director of the new Equine Research Station established by the Veterinary Educational Trust at Newmarket, is making a study of "Typhus disease" of his first projects and has asked for expert help.

It is to be undertaken at MacArthur Hall, the headquarters of the U.S. Office of Education, of a \$100,000 (\$100,000) grant from the National Foundation for the Grant expected to finance research for the next year.

Recent estimates by organizations operating under the national health care plan, which would require the payment made under the plan were in those afflicted with "chronic" rheumatism.

The National Foundation was re-established by Louis Muller in 1943 with an endowment of \$100,000 from the U.S. Office of Education.

Dominion Helps Alberta

Development of the most ambitious irrigation program ever undertaken in Canada is gaining momentum in southern Alberta after construction work on the \$10,000,000 El. Mary river dam southwest of Lethbridge inaugurated by Rt. Hon. C. D. Howe. Under the proposed scheme the federal government will build numerous dams, reservoirs and hundreds of miles of main canals to make water available for irrigation from the

Shipping Of Wheat West Will Continue

OTTAWA—On recommendation of the Canadian wheat board wheat shipments west to Vancouver will not be cut off for the time being at least, as the grain flow east to the lakehead and from lower lake ports to Montreal is now reaching satisfactory proportions. The board has informed the transport control officials in Ottawa that if the present railroad service is maintained by the railways the wheat board will be satisfied.

Of the 21 grain freighters which were waiting empty at Montreal some ten days ago, ten have been loaded and sent on their way to Europe.

In the meantime, there has been a great increase in the movement of grain from the lake head to the lower bay ports. The railways have rounded up all available cars from other services to help the grain moving from the prairies to the lake and on from the lower bay ports to Montreal.

The Canadian transport controller is also speeding the movement of American open cars and guidelines back to that country in order to press the claims for return of Canadian box cars for grain haulage.

Where a week ago, the overall picture of car exchange between the two countries showed 11,607 more U.S. cars in Canada than Canadian cars in the US, this surplus has now

LONDON - Prime Minister

At AIA's disclosure before a meeting of the Labor party's movement's plans for a full program. The four-point plan covers a call-up for 15-year-18 months service, followed years of Territorial reserve call group, vouchered for by or heads of conservation, and ordered to do their military duty time between the ages 25.

Constitutional objections will on alternate work for a standard. Lastly there will be no taxation whatever to compulsory service except on non-occupational grounds.

The prime minister faced a task as he presented the plan to parliament. He had to win the support of the general Congress, Trades Union Congress. How is believed to have won the

Agrochemicals Open Plant

FEDRIA, Inc.—Production of agrochemicals from the liquid wastes from the production of other chemicals has been a step forward with the opening of a new plant at the United States Department of Agriculture's Northern Research Laboratory.

Dr. L. B. Howard, chief of the Bureau of Agricultural and Industrial Chemistry, announced that the materials designed to protect consumers from a deadly disease of the corn had been started in the plant.

The function of the newly constructed building is to produce the amino acids from which the insecticides are to be obtained. The firm has been producing the amino acids, urea, and machines in which to make a "neurotoxicant precursor."

In the case of corn, it is

The cubes are crumbed and fine in a long cylinder, where the particles are forced through an acid bath to extract the sugars. This yields a 10 per cent sugar solution.

The particles then are dropped into a ground, put through an acid wash, a screw press, a high speed mixer, a steam-heated coil, and a filter. The result is a clear solution containing about 20 per cent glucose sugar.

The solutions then go to a fermenter to be fermented to alcohol.

These factors will have a direct bearing on the overall cost of the process. The cost of the feedstock, the energy required for the process, and the cost of the catalyst are all important factors. The cost of the feedstock is the most significant factor, and it is this cost that will determine the overall cost of the process. The energy required for the process is also a significant factor, and it is this energy requirement that will determine the overall cost of the process. The cost of the catalyst is also a significant factor, and it is this cost that will determine the overall cost of the process.

In the form of ethyl alcohol, salicilic acid is not so important as *ginseng* as a monitor fuel but to test possibilities of making them as cheap enough for use as a bio-agent.

Definite facts and figures were available, however, until some time after the plant is in full operation six months or more in the future, they say.

The process is the outgrowth of research by Drs. E. C. Lathrop and J. W. Cunningham, *Brookline*, Mass., who can use such farm waste products as manure, barnyard manure, and

This kind of mail explains the delays in new service connections—
even though we are now and have been making service connections
at a more rapid pace than we did before the war. Equipment is
even harder to get now than during the war—so we have not been able
to keep up with our orders for new connections, and new transmission
line construction is also being delayed. We are doing all we can—

Adequate Minerals And Vitamins Are Necessary

Winter crippling was once thought to be caused by a lack of exercise but is now known to be a deficiency disease (rickets). By feeding adequate amounts of minerals and vitamins pigs can be grown and fattened in small pens without sunshine or much exercise. It is a good plan to provide breeding stock with liberal space and pasture in summer, and outside runs in winter, but when feeding for market greater gains are made without too much exercise.

Woods, continued, at The Experimental Station at Becht, have shown that a liberal allowance of prepared inorganic vitamin D could not be substituted and pigs became naturally and crippled, while pigs receiving fish oil showed no signs of crippling. The addition of fish oil to the feed of the crippled pig quickly improved the thrift and gain. It was also observed in these tests that pig-

Editor Of Farm Journal Gives Her Reasons

The said economists had arrived at \$40,000 after a 13-week study of wives and their work. Nobody even bothered to compute a housewife's value in her own monetary terms.

"A city wife is worth a lot," Miss Durbin said.

"A farmer and his wife

partner," she said. "They are going most of the time and work together all day long."

But in the cities, wives serve their husbands from breakfast to dinner. They don't know who's on at the office and they don't go in the basement. The study said that a typical dairy farm house washed 1,500 pounds of clothes, dried four and three-quarters tons of water and spent 57 hours in laundry during a 12-week period.

These millions of people who adhere strictly to the tenets of certain religious beliefs are spared the possibility of contracting a disease known as trichinosis. Trichinosis is a disease which 100 years ago was first recognized as one which resulted from eating pork which had been infested with a worm like parasite—*Trichinella spiralis*.

For those who do eat pork, it is imperative that they remember the rule or partially cooked pork is dangerous. That pork and pork products always should be well cooked.

In the year 1825, Dr. James Paget, famous English surgeon, was doing post-mortem when he noticed the swarms of small bugs and cadaveric swillings in the moribund were taking the edge off his knife. He took out some of these vermin and showed them to Robert Owen of the

(COMPARED TO DEER-HUNTING)**

BRILLINGTON, Vt. — Armand Proulx, 30-year-old war veteran, is convinced that the terrors of war are mild compared to deer-hunting.

Proulx brought home a 250-pound right-point deer from the woods

But only after he knocked it down with a .22 caliber rifle, threw his gun and mounted the door, ran it back for 50 feet as it burst wildly, and slashed it 15 times with a hunting knife before the bear dropped in its tracks.

The bullet wound was superficial. Fenns grinned and said: "I guess I was a little excited."

World Food Supplies

A YEAR AGO THE WORLD FOOD SITUATION WAS VERY GRAY and authorities were apprehensive as to what might happen in parts of Europe and Asia before another crop was harvested. Disaster and famine, such as was reported by many people was averted but the distribution of food was a gigantic problem and much help was sent out on this year's harvest. In the grain producing countries there was a bountiful crop this year, the volume of wheat production being greater than in any year since 1914. In this respect it is, however, it appears that there is still a very serious world food supply and that the situation this year may be as critical as it was in 1914.

Reserve Have Been Used Up

The reason for this continued shortage of grain is attributed to the fact that all reserves supplied of wheat and other grains have been utilized in the past year. The reserves of grain in the United States and Canada have been used up. The reserves of grain in the United States and Canada have been used up. The reserves of grain in the United States and Canada have been used up.

Problem is of Largest Interest

At a major food producing country and one of the largest contributors to the work of the United Nations, Canada has a great interest in all problems connected with present and future food production and marketing. At this time, the whole question of food production is of the greatest interest to the people of this country. There are many people who are not aware of the fact that the production of food is a very important and difficult task.

Rob your Rest..

Many people have come to get a good night's rest. They have tried and—*then* it is an "injury"—when it may be their kidneys. Usually kidneys filter poisons and waste acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well and use Smith's Kidney Pills, Smith tells you the kidneys are just one more body—and last thing.

THIS CURIOUS WORLD By WILLIAM
FENIGSON

Canada's Labor Picture Appears Bright For 1947

OTTAWA Canada's citizenship situation is remarkable, given the fact that the president who people most admired during World War II, Franklin D. Roosevelt, was born in America.

President Roosevelt's family is actually in 1947 the richest and most powerful in the world, and the president himself is the most powerful man in the world. Roosevelt's family is the only one in the world that has been in the White House for three generations. I feel that we have come a long way from the first Roosevelt, such as the three most powerful men in the world, to the present day.

Reports that Roosevelt's family is the richest in the world are true. This is a true statement, and it is true that the Roosevelt family has been in the White House for three generations. In 1932, the Roosevelt family was the richest in the world, and the Roosevelt family was the most powerful in the world.

Canadian Citizens**

OTTAWA Legally speaking a whole new race of people exists. Those on New Year's day when approximately 12,500,000 persons residing in Canada called themselves "Canadian citizens" rather than British subjects.

The Canadian Citizenship act, passed at the 1946 session of parliament, has been proclaimed to go into effect January 1 and for the first time in the 78-year history of the country as a self-governing British dominion, Canadians for legal purposes can call themselves what they are in fact.

ORANGE PEKOE TEA

— the essence of "good taste".

Canadian Citizenship

WITH THE PASSING OF THE NEW YEAR Canadians have a quota for the first time the legal status of Canadian citizenship. The Canadian Citizenship Act, which came into force on the first of January, now gives the people of this country the right to describe themselves as citizens and other legal denizens as Canadian British citizenship, which at regular intervals have held in the past, a privilege to hold under the new regulations is a privilege which few people would underestimate. But at the same time there is one thing that most Canadians had anticipated and that being the Canadian legal citizenship of the country who has the right to birth of its subjects.

Act Of Faith in The Future

and representation which go with it. During the war the great possessions of Canada—resources, both human, and material—were at last fully utilized and her status as a nation increased accordingly. A high degree of unity was secured, in the armed forces and at home, as people from all parts of the country learned to work together in a great common cause. Unquestionably, Canada is now seeking to set a new, positive and constructive example in the post-war world and meet the problems and uncertainties of the times there it would expect for a continuation of the national co-operation here during the war and for the people to continue to work together as Canadians in building for the future.

**Contribute To
National Life**

There are perhaps none of them who will welcome this change as much as the rest of the citizens themselves. Most of them came here looking upon Canada as a place where they would be free men and opportunity which they did not have in their native lands, and natural recognition of their qualifications for full citizenship will mean much to them. We may be proud instead of the people of many lands who claim Canadian citizenship but contribute scarcely to the progress of our national life. The use of Citizenship Act has marked a milestone in Canada's development as a nation and much of her future depends upon the manner in which all Canadians guard the privileges and fulfil the duties of citizenship.

Respecting Price Control

The Wartime Prices and Trade Regulations (Order in Council P.C. 8526 of November 1, 1941) established basic period maximum prices for goods and designated services. These regulations were passed under the authority of the War Measures Act and continued in force under the *Food and Consumer Goods Act*, 1945.

Under the National Emergency (Economic Warfare) Act, 1943, the complete price control regulations are contained in Wartime Prices and Trade Board Order No. 684 which is available to the public at any office of the Wartime Prices and Trade Board, and to which reference should be made for exact details.

Dr. Murray, Professor of Public Health Sciences, School of Hygiene, University of Toronto, was speaking at a series of nutrition lectures arranged by the Toronto Branch of the Health League. He said that guinea is a nutritional disease which is being badly overlooked.

He added that it is known that it is not possible for most people in Canada to obtain sufficient food from customary supplies of food and drinking water. Therefore, limitation of table salt so that ordinary table salt could be purchased would be highly desirable.

Industrial salt was compulsory in army and air force establishments.

He said sufficient quantities of several foods are available in Canada to provide every Canadian with the nutrients needed for health, but that the best sources of these nutrients are left to their own devices.

Ignorance and indifference," said, are the two main causes of malnutrition in Canada. As for overweight, Dr. McHenry said he is not usually under malnutrition.

PORK and BEANS THE WEEKLY SHOVEL-FULL

Wife: "Wake up, John there's a breakfast going through your pants pocket."
Husband (rushing over): Oh you two just fight it out among yourselves.

Boat: I wish you wouldn't sing when you are working.
Hullop: I wasn't working, sir I was just singing.

She: You'd better watch that arm of yours.
He Oh. It knows its way around.

You still take your morning bath I suppose.

Never mind is. Sometimes I take it hot, sometimes cold and when I'm in a hurry I take it for granted.

A motorcycle cop pulled inside a car parked on a country road at the wee small hours of the m-orning.

Now, he roared, what business have you out out here at this time of the night.

Turn in! business, come a ride from within, his pleasure.

Lady You would have stood a better chance of getting a job if you would shave and make yourself more presentable.

Transo You're right, I found that out years ago.

This girl's break from the country and it's up to me to show her the difference between right and wrong.
O. K. pal, you teach her what's right.

History. How dare that clock you was at the fair run?

Dishroy: Fine it does an hour in forty five minutes.

Don't wait for great opportunity in this town everybody can make their mark.

CANADIAN BACON COMPETITOR TO DENMARK QUALITY

"Canadian bacon is a competitor of Denmark's quality," when it comes to the quality of the product, says a representative of the Canadian Bacon Company. The company, which is based in Toronto, has been producing Canadian bacon for over 20 years. It is a product that is made from the back of the pig, and is cured and smoked. It is a popular product in Canada and is also exported to other countries. The company claims that its product is of the highest quality and is a true Canadian product.

LONGING TRUCK FLIES THROUGH EIGHT-FOOT HAYWALL BRIDGE — Truck load of hay plunged through one of the two spans of the highway over bridge at Hastings, Ont. The truck with its high wind-up came to rest after the bridge collapsed. Three passengers in the truck escaped injury but the 25-ton load of hay, which was on the bridge at the time, was blown into the air by the force of the impact. The truck was carrying a load of hay and was traveling at a high speed when it struck the bridge. The bridge collapsed under the weight of the truck and its load, sending the truck and its cargo flying through the air. The truck landed on the ground below, where it came to rest. The hay was scattered all around the truck, creating a large cloud of dust and debris. The scene was a complete mess, with the truck and its load having caused significant damage to the bridge and the surrounding area.

Building Records Broken in 1946

OTTAWA Canada's building industry showed a record in 1946 as the greatest, value in history, reaching previous records by more than 100,000,000.

The Bureau of Statistics reported preliminary figures that the gross value of building work in 1946 was \$1,000,000,000, compared with \$800,000,000 in 1945 and \$600,000,000 in 1944.

The comparison showed a 25 per cent increase over the year 1945, and a 66 per cent increase over the year 1944. The figures were based on the value of work done, not on the number of buildings constructed.

The increase was due to a number of factors, including a rise in the price of building materials, a rise in the cost of labor, and a rise in the demand for new buildings.

The figures also showed that the value of work done in the building industry in 1946 was higher than in any other year since 1939.

ONLY TWO PER CENT LEFT TO CHARITY IN WILLS

Charities are left 2 per cent of the value of the estates of those who die in 1946, according to a report by the Canadian Council on Social Service. The report is based on a survey of 100 wills, and shows that the average bequest to charity is only 2 per cent of the total value of the estate.

The report also shows that the average bequest to charity is only 2 per cent of the total value of the estate. This is a significant decrease from the average bequest to charity in 1945, which was 3 per cent.

Don't throw away that cracked cylinder head or engine block or spend endless time and money trying to repair it or get a new one.

With the "Cold Weld" method and equipment recently installed we can permanently repair, approximately 75% of all cracked heads and blocks.

Cracked valve seats no longer necessitate a new cylinder head in most cases and the cost of repair is a fraction of the cost of a new part which frequently can not be obtained.

Let us examine that cracked head or block and give you an estimate on repairs.

THE WEEKLY SHOVEL-FULL

Held Mr. Hobson - A baby's troubles, that's true, but to remember the hand that rubs the cradle rules the world.

Reginald his wife - Well, then, suppose you assume world dominion for the evening while I go to the movies.

A reader reasonably asks. Why is it that Sam shows him all the time when the larger south the imitation to ladies.

A favorite story about Henry Ford is the one told on the occasion of the Ford's fifth wedding anniversary, when a reporter asked Mr. Ford in what way he attributed your successful marriage?

The kindly automobile man answered. The formula is the same as one used to make a monumental mistake in the same model.

How far down do you want to ask the ticket man of a woman on the bus office window. Why, at the way of course she snapped.

Judge - Your profession. Witness. Agricultural expert. What was your father's?

A farmer. And your grandfather's?

A peasant.

The young one of a land and/or went to his mother's room and asked what they were doing up in the sky. Thinking to shift the responsibility for such matters on the proper shoulders, she said. Well, don't you ask your father, dear! The boy shook his head. He had wanted to know that much about him, he said.

Lady - You would stand more chance of getting a job if you would shave and make yourself more presentable. Trump - You lady I found that out years ago.

Rural Housing

THE DEBATE ON THE RURAL HOUSING problem has been the subject of much discussion in the past few years and recently popular interest in the problem has been particularly acute. One of the most important factors in the rural housing problem is the fact that the rural population has been steadily increasing. This has led to a shortage of housing in many rural areas, and this shortage has led to a number of serious problems. One of the most serious problems is the fact that many rural families are forced to live in overcrowded and unsanitary conditions. This is a problem that must be solved if the rural population is to be able to live in decent housing.

Many Advances Have Been Made

There are many reasons why the rural housing problem has been so difficult to solve. One of the main reasons is the fact that the rural population is scattered over a large area. This makes it difficult to build housing in one central location. Another reason is the fact that the rural population is often poor. This makes it difficult for them to afford to build housing. However, many advances have been made in the past few years. One of the most important advances is the fact that the government has begun to take an active interest in the rural housing problem. This has led to a number of new programs and policies that are designed to help solve the problem.

Science in Farming

Outlines The Achievements Of Canada's Experimental Farms

WITNESS the achievements of the Canadian experimental farms, and you will find that the progress made in the past few years is nothing less than a revolution. The experimental farms are the laboratories of the farmer, and they are the only place where the farmer can learn the best way to grow his crops and raise his stock. The experimental farms are the only place where the farmer can learn the best way to use his land and his money. The experimental farms are the only place where the farmer can learn the best way to live and to work.

See—I just bought a nightgown Hugh—What aren't they selling rubber ones anymore.

Ram—You mean there's nothing wrong with me?

Don—On your left leg is swollen, but I wouldn't worry about it. Ram—If your left leg was swollen I wouldn't worry about it either.

1st Wife—Can your husband keep a secret?

2nd Wife—He thinks he can, but he talks in his sleep.

Happy—Where do you bath?

Happy—I bathe in the spring.

Happy—I didn't say when I said where.

Glennie—I hear he's living off the fat of the land.

Honolulu—Yeah, he's a redundant expert.

Dad—Hear, that young man of yours seems to be a lazy, good for nothing chunder. What has your mother said about him.

Mary—She said none haven't changed since her time.

We saw two ladies giving the pot on his neighbor and motion on the first day of spring.

ALBERTA HIGHWAY PAVING PROGRAM, IN 1947
Hard surfacing of Alberta highways this year will mean an expenditure of \$4,000,000, according to estimates tabled in the legislature when the 1947-48 budget was brought down.

The vote includes \$3,000,000 for main highways, which means many improvements in different parts of the province. The total vote of \$12,000,000 for public works includes large appropriations for municipal, district and secondary highways, bridges and ferries.

Officials of the Alberta Motor Association welcomed the announcement of the government's greatly expanded road program. This organization has urged for many years that all monies collected by the province in motor licenses and gasoline tax should be specifically spent on highway construction and maintenance. It appears from

the budget that this year the program means that the province plans to exceed motor revenues by its increased outlays on public works, mostly roads.

One of the big projects for the 1947 program will be the hard surfacing of the highway leading from Cardston to the U. S. border, to Lethbridge. This alone will cost \$1,000,000.

THE WEEKLY SHOVEL-FULL

A little which breeds asks his parents. How did I get here? His mother answered readily, Your dad and I swept together.

An excited lady burst into Mrs. Schmitt's home.
Your son, Mrs. Schmitt? she asked Your son!
What about my son? demanded Mrs. Schmitt.
A! the kids were playing a game. Mrs. Schmitt, to me who could lose out of the window forthwith. Your son son.

A student girl never pursued a man. Nor does a moonstruck person a woman.

What do you do for a living? ask of the judge.
I am a night orderly at a hospital, and the prisoner.

Thirty day-long handling and the judge.

Cancer: Planting conversation which should be treated like a mischievous boy; it behaves better when paddled from the rear.

At the height of a terrific domestic quarrel, a very indignant wife reminded her husband Don't forget that I came from an extremely aristocratic family.

Come from, my eye, snarled her husband. You brought the whole lot of them with you.

Fishing: An unhabited baby of nature completely surrounded by them in all seasons.

A fat dweller in a crowded bus trod upon the foot of an irritable guest who was trying to read his newspaper. Madam, he said coldly, I will ask you to kindly get off my feet.

Put your feet where it belongs also replied sharply.
Don't tempt me Madam, don't tempt me, he murmured.

A good citizen is one gives back to the world some of the good he has taken from it.

HEART DISEASE

Physical fitness has nothing to do with heart disease. Exercise increases the heart's capacity to pump blood, but it does not make the heart any less susceptible to disease. The heart may have ailing long before disease if the damage is severe or if the disease be active as in the case of atherosclerosis, which is a disease of the arteries. "Exercise is not a cure," Larrabee concluded, "an stage in the recovery of a damaged heart."

Exercise with heart disease will also affect the heart's rate. The amount and degree of exercise he should undertake, however, says Dr. Larrabee, should be determined by the physician. Also, there can be "a lot of things of which a man is unaware that are not at all heart ailments."

It is somewhat of a very difficult job, he said, to tell a man the cause of a group's failure to decide on whether continued exercise or no exercise will be better. Patients who are not fit to exercise should be encouraged and try to settle the question themselves because as a rule they set one way or the other.

Many people who have recovered from coronary thrombosis think they are permanent non-smokers and should always avoid smoking. This is quite unnecessary and possibly harmful. This disease is something like a broken leg to the majority of people that have it. It is something from which one recovers and it will heal strong afterwards. A new attack is

that any exercise which is comfortable is harmless and probably is beneficial.

**GROW MORE
BARLEY**

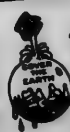

FARMERS! There is a **ROOPE BARLEY** OF 90 CENTS, bush No. 1 Feed, delivered **FORT WILLIAM** — **PORT ARTHUR** or **VANCOUVER** for all barley sold between August 1, 1947 and July 31, 1948. The price may be higher but it cannot go lower.

Canada is short of barley as feed for live stock. More barley is necessary for the maintenance of Canadian live stock and the production of urgently needed live stock products. Farmers can grow barley this year with the assurance that all barley sold until July 31, 1948 will bring not less than 90 cents a bush, bush No. 1 Feed, at Fort William - Port Arthur or Vancouver.

**WHEAT AND OAT AVERAGE
SHOWS SLIGHT DECLINE**

Wheat and oat average will be down slightly, barley up about 10 per cent, rye up about 20 per cent, and flax up about 100 per cent, the Alberta Wheat Pool said in its latest crop report of the 1947 season. All though these estimates are tentative, and a number of factors might have drastic reactions of farmers' plans, this is considered a fair indication of the effect of new price policies formulated in the last couple of months. For instance, the average of flax was boosted from \$2.25 to \$5 per bushel.

These are the first forecasts of acreage changes. Up to April 30 the average of seeding down in the province was "satisfactory" and at the same time last year 22 per cent was in the ground.

Barley is later this year than in any year since 1942. There is a "very satisfactory" response of moisture in some sections of the Peace River district but soil is slightly below normal, but everywhere else both surface and subsoil moisture are all that can be expected and much better than for many years.

Winter wheat, which is somewhat more than the first part of the winter wheat average, did not come through the winter as good crops. Probably a large percentage of it will have to be reseeded.

CANNER HORSES BRING 25 CENTS PER POUND

The third annual meeting of the Horse Cooperative Marketing Association recently held at South Carleton Place, reported marked progress in its activities for 1948 and which is of vital interest to Western farmers.

The financial position of the Association has improved in a point where it is now out of debt. A year ago the capital debt was over half a million dollars. This position has enabled the Board of Directors to allocate the net proceeds to further payments on horses shipped to the U.S. in 1947 and 1948. Current plans to 1948. The final returns to 1948 shipment will be 2 cents per pound. During 1947, 84 cents per pound will be paid on these horses. This final return to farmers is twice the price received a year ago.

Following the annual meeting, the Board of Directors has decided to increase the initial points on 2 1/2 cents per pound for grade A horses. This increase in initial points, commencing May 1st, farmers who have sold horses to the Plains have been ordered to the Plains before May 1st, 1947, will receive further payment in the form of interest to equalize the price increase. All net proceeds from plant operations will be allocated to horses shipped in 1947 on an equalized basis.

TRAFFIC SAFETY

POTLAND (AP) — Portland is now a place for people.

Take it from Bill F. Heine, leader of the city's poetry scene, who has been making songs that rhyme to keep the arts in the light line so people who have to pay fines or have their letters seized won't mind.

The city dismantled Heine's sign in the second phase of a decline in the arts, which first started when the city took away the sign for the city's reading poetry in the moonlight.

Heine's job was to keep automobiles off the streets and out of the city's parks and beaches, and to keep the city's streets and beaches clean.

Potland was a quiet city until the city brought shippard workers to the city.

Heine got out his rhymes and signs, put them on the street corners

FREE SERVICES FOR FARMERS

For the purpose of assisting the farmers of Canada to meet the economic problems with which they are constantly confronted and to carry on the industry of Canadian agriculture to the advantage of the nation as a whole, the Dominion Government has several millions of dollars invested in free services and facilities.

No other industry has at its disposal such a wide and varied range of services and facilities provided by the Government. They include the Dominion wide system of Experimental Farms and Stations, the divisions of Dairy Research, Botany and Plant Pathology, Chemistry, Entomology and Plant Protection of the Research Service, the division of Health of Animals, Plant Production and Livestock with their field service of the Production Service, the Marketing Service, in which is centralized the administration of all grading services of livestock and livestock products, dairy products, poultry, eggs, fruit, vegetables, canned goods, maple products and honey, and the Division of Agricultural Economics, which serves as a fast-moving body concerning production and marketing.

Results of the research work and experiments of all these services the Dominion Department of Agriculture has made known to farmers and the people of Canada generally through its publications, press and radio, exhibits and other means directed by the Publicity and Extension Division.

Those engaged in the industry of Agriculture, whether directly or indirectly, are invited to make full use of the services and facilities so coordinated. They are free.

PROSPERITY

FOLLOW IN THEIR FOOTSTEPS

It springs from the rich earth
 blossomed by our hands.
 It is here of the wheat and the
 corn and the barley and all the
 good things of the land.

Yes, your crops are the very foundation
 of our nation's prosperity.
 Because land is an absolute necessity
 for every man, woman and child.
 Because the growing of food is
 Canada's most important primary
 industry. And this grows your land
 — in the sure and steady way of
 the farmer.

BANK OF MONTREAL

Working with Canada in every phase of life

The land you grow is also helping
 to build a better place by working
 all lands in the two-warmer countries
 of Europe, during these years of
 reconstruction.

Indeed, yours is a tremendous contribution
 to the world. But Canada is busy
 doing all the land you possibly can
 ... that your crop
 ... will never
 ... in the way
 of prosperity.

LESS NEWSPAPER DEBT FOR CANADIAN PAPERS

Canada has agreed to increase
 newspaper subsidies to Argentina
 in return for greater supplies of
 vegetable oils from that country. It
 was recently received from an authori-
 tative government source. The
 "three times" between the two
 countries will mean a slight reduction
 in quantity of newspaper circulation
 in Canada and the United States.

POWER TO EARTH

Probed health insurance have
 created the slogan "Health is saving
 power" in many papers and
 other forms of health education. They
 point out that, no matter how
 healthy we are, we must come out
 of there to health itself. It
 Health provides the power to am-
 able people of their, they remind
 the Canadian public, and conserva-
 tion of health is, therefore, not
 just to the attainment of any goal.

PUT OR TAKE

Some fellows say right in the ref.
 While others hand the "thing"
 All men may be born equal.
 They don't stay that way long.
 There is money in a man, with a
 good ear.
 Good sleeping in the tray
 But the valuable man in the man
 is the man.
 When the man has changed
 some "don't get out" out of
 him.
 But when their brains begin.
 We often see men in the man.
 They don't put in.

To the people of the United Kingdom, many of whom had not seen a Crown apple since the outbreak of war, Canada shipped 75 percent of her 1946 apple exports. A total of 1,277,000 barrels, valued at \$2,207,465, were made available for export last year. Of this quantity, 1,151,264 barrels were sent only for the United Kingdom.

Michael Boyce Tops Junior Calf Sale

A very successful Calf Club Fair and Sale was held at Carstairs Monday June 30th. This was sponsored by the Carstairs Board of Trade, and to all its members great credit is due for the efficient way in which all arrangements were made and the whole day proceeded smoothly. Perhaps no one would be singled out for special mention, but Mr. Odomore, not only spent all day at the sale but worked all night and again on the July 1st, holding together complete statements of the sale.

I am sure all club members and supporters will wish to extend to the Carstairs Board of Trade their sincere thanks.

Six clubs, Ardenale, Mud Dabbers, Carstairs, Eagle Hill, Onda and Madsen participated and 120 calves were shown and sold. This terminates about 8 months of careful feeding and care of the calves, during which time each club has about one meeting a month, when members learned to conduct meetings to judge livestock and discuss problems in care and management. In addition to supervision by Hugh McPhail, District Agent for all of Onda, each club had a local leader. N. Charlton was leader of the Carstairs club.

Judges of the calves were Wm. Mead of Onda and Mr. Loren of Edmonton. Horsemanship was judged by U. Black and Fred Ball. The Grand Champion of the show was a Hereford shown by Michael Boyce of Onda. It sold to T. Beaton of Onda, at \$150 a pound, for \$12. Michael was not very successful last year but made a real job this year. The sale fund was one drawn by lot from a number of tickets for livestock in the stock yards. The Reserve Champion was shown by Billie Francis, Carstairs, and was also a real drawer by lot. Billie made a fine job of preparing this sale.

The first six places in each club were won by the following—Madsen club: Annette Hopper, Edna Shattell, Rita King, David King, Marvin McArthur, Marvin Gullison.

Wend Delaney—Donald E. Short, Sam Onda Bar, Clarence Laft, John Gilmot, Martin Laft, Vera Blain. Ardenale—Ray Hove, John McLaughlin, Lloyd McLaughlin, Lawrence McLaughlin, D.J. Meyer, Dan Gordon.

Carstairs—Billie Francis, Harold Kestelers, Bobby Stevenson. Havelock—Freddie Fink, Irene Ball Onda—B.C. Dwyer, Wm. Mead, Billie Watt, Verne Peterson, Kenneth Peterson, M. Peterson.

Eagle Hill Gordon Johnson, G. Rosenberg, Douglas Paton, Donald Beattie, Ralph Paton, Bill Humber.

The Champion showman of the show was Don Robertson, who won the show better described by Archie Ryan.

The winners of championship in each club were as follows—Ardenale—D. Meyer, John McLaughlin, Loren McLaughlin, Wend Delaney—Don Robertson, Gordon Johnson, John Eklund, Carstairs—Howard Francis, Stanley Ball, Harold Kestelers, Gordon John, Douglas Paton, Madsen—Annette Hopper, Rita King, Virginia Steele, Uda Bar, Verne Peterson, W. Beaton, Verne Peterson.

Carstairs Club paid a prize for

Cremora Sports Day Tues., July 1st

Favored by ideal weather, the Oronova sports went off without a hitch and the great crowd which was in attendance were given full measure of entertainment.

In the baseball tournament, Cremora won from Oronville in the first game and Madsen won from Carstairs. Oronova won the final game from Madsen by a 7 to 1 score.

The games in the ball at night also attracted a good crowd, thus providing a fitting climax to a very successful day.

Presbyterian Notes

The Protectors of Red Deer, held a special meeting in Kent Presbyterian Church, Carstairs, on Monday June 24th to select Mr. D. Walscott Campbell, Treasurer was by the Rev. O.K. Bray, Moderator. Rev. M.A. Marks B.A. Noddy M.B. Hunter B.A. Ivesdale addressed the minister and Rev. D.J. Fifth, B.A. Red Deer, addressed the congregation. Other ministers present were D.J. Bricker B.A. Kelville R. Lawson B.A. Lussanville and J. Allen Moore. Specialized organization. After the ordination, the ladies of the Church served a very nice lunch.

ANNOUNCEMENT

Mr. and Mrs. C.E. Westall announce the engagement of their daughter, Pauline Catherine, to Mr. Raymond Marvin Cudde, only son of Mr. and Mrs. G.B. Onda of Calgary, the marriage to take place on Saturday July 19th in Calgary.

Baseball Notes

Carstairs won a league game at Oronville on Sunday 12 to 4 and at Onda on Wednesday night they took a two run lead to win, when they scored four runs in the last inning.

The next game scheduled here is on Sunday, when Oronville is to play.

Mr. Ed Truhear and children of Jasper are victims at the Oronova home this day.

"Night and Day," a ten-minute musical, is showing at the hall this Friday and Saturday.

For the lost ground calf in the club, it was won by Robbie Stevenson of Ardenale, Carstairs, of the Oronova Havelock Branch. Since the event in each club member that stood first in his club with a bare foot. Five were as follows—Don Robertson—W. Delaney, Billie Francis, Carstairs; Gordon Johnson—Annette Hopper, Madsen; Michael Boyce Onda.

Mr. Frank Odomore again very generously donated \$25.00 to the Red Club. This was paid to the members competing for the Championship as follows—Michael Boyce, \$10.00 Billie Francis, \$5.00 Harold Kestelers, Annette Hopper, Madsen \$5.00.

The Carstairs Board of Trade donated a cup for the Champion of the show which was won by Michael Boyce.

The Board donated by the Carstairs Board of Trade for the first prize calf in their club was won by Billie Francis.

Weddings

Alaska Highway—Famed Road That Leads To Unspoiled Wonderlands

—Over Prairie And Through Forests—

The Alaska Highway, the longest road in the world, stretching from the Gulf of Alaska to the Yukon delta, is a marvel of engineering and a gateway to some of the most beautiful and unspoiled lands in North America. The road, which is now open to traffic, has opened up a new world of adventure and discovery for travelers from all over the world. The highway is a masterpiece of engineering, built through some of the most difficult terrain in the world. It is a road that leads to wonderlands, a road that opens up a new world of adventure and discovery.

Sandra's Sanatorium

By A. A. GILBERT

Sandra Marlowe stood at the window, looking out at the world. She was a young woman, beautiful and intelligent, but she was also a woman who was struggling with her life. She was a woman who was looking for a place where she could find peace and comfort. She was a woman who was looking for a place where she could find a sense of purpose and meaning. She was a woman who was looking for a place where she could find a home.

First motorist—I love the beauty of the countryside.
Second motorist—Show it! Some times I give you a lift.

Who's the girl with the French kiss?
Who's my sister, and then goes off to France.

It's wonderful what some men can do.
A roadrunner can jump 200 feet in one leap.

That's nothing—I can see a ramp raise a 200 pound man three feet off the ground.

First Boy—My father is a brave man to be.
He's the best I've ever met.

Outie—Mother, don't you know that thinking will ruin your skin?

Unst—So what? I always say my best when I'm not wanted.

Be! Be! Be!
What, man, are you telling me the fish live? No, but I'm coming pretty close.

Danahue—Oh, poor, my dear, I'm not sure, but I think it's a great deal.

Stout Lady (to little boy) Can you tell me if I can get through this gate to the park?

Little Boy—I am on a land of my own, your house.

She—Can you drive with me?

He—Sure, have me, my dear.

She—Can you drive with me?

He—Sure, have me, my dear.

THE WEEKLY MEAT-PULL

At last, ground the shovels dig in, total pounds of the job. It will follow your mind, not your waist, and the more you eat, the more you want. It is in this that you have been finding.

You see this means that you should eat the meat and the beans. It is the only way to get the most out of the food. It is the only way to get the most out of the food.

There are three reasons for this. First, it is the only way to get the most out of the food. Second, it is the only way to get the most out of the food. Third, it is the only way to get the most out of the food.

Yours, Dave's why else don't you eat it? \$6000

Somebody's Uncle, make a meal like this.

Uncle—What on earth for, James?

James—Don't move that when you eat it, you'll get \$6000

A stout woman drove up to a policeman. "I want two quarters of oil, she said.

What kind, honey? asked the policeman.

Well, young man, don't get fresh.

Madam what do you mean by letting your child wash off his face?

Oh, it's a wash, isn't it? was afraid for a minute that he might get wet.

He—I hadn't know what to do with my washcloth on his face.

She—Why must you bat on it?

Famous saying—Money isn't the best that makes the law.

Prud Bos—Bosford has taken out a great many more and is still using 'em out.

Dear Cousin—Well, you can't blame him.

Your sister is spoiled, isn't she? Yes, that's just the perfect child.

Business—the ability to get along with some people—and ahead of others.

Are you secretly married to Alice? If so, she knows all about it.

Mary had a little gown
That outshone the queen.
She never went to work in it.
She wore it just to tease

It's only when you view the gale on a breezy day that you begin to realize all the wind that's wasted blowing ships around.

There's a young man in this class making a dance of himself, said the professor. When he's finished, I'll marry.

What this country needs is a good five thousand dollar house selling for seventy five hundred

Junior—Why doesn't Mother want to go back to Echo Lake this year, Dad?

Father—Perhaps it's because of the famous who at the lake—I know she doesn't like to be deprived of the last word.

There is only one place you can find success without work—in the dictionary

I ordered a dozen oranges, but you only sent me ten.

Part of our service, madam. Two were bad, so we saved you the trouble of throwing them away

To find out a man's income, ask him what income should be tax on each.

**JOIN THE SWING TO THE
MASSEY-HARRIS
SELF-PROPELLED
THE ONE-MAN HARVESTING MACHINE**

Are you one of the many farmers in this district who are thinking of changing over to the combine method of harvesting their crop? If so why not join the swing to the Massey-Harris Self-Propelled. The Self-Propelled is more than just "another combine". It is the most advanced development in harvesting machinery since the invention of the first reaper.

The M-H Self-Propelled is pushing its way through millions of acres of grain lands every year, efficiently eliminating the extra tractor required on the ordinary combine. It cuts the grain to front of the machine, saving over the grain on the spring stand.

It not only saves grain... it saves fuel, time and money, too. Why not investigate the possibilities this machine holds for you. Come in to-day and let us tell you all about it.

THE WEEKLY BOUNTY FILL

Only a friend can become an enemy, a relative is one from time to time.

What did you give your baby for his birthday?
We opened his play box and brought him a puppy.

Opportunity knocks but every man has to answer the knock.

I'm an important man. Right now three big companies are after me.

Yes, I know. I have the gun, steno and telephone company.

Some women grow old before their time, trying to keep young after their time.

He—What lovely as you have, then—I'm glad to see them. They were a birthday present.

The only way to keep from paying attention to the matter may change or stay improved.

If you marry me I'll gladly die for you.

Yes, what?

A woman arrived at the wedding late. She rushed on to the dance and another asked her if she was late. I have said she was not.

Do you see a friend of the groom? asked the bride.

Certainly not answered the woman. Is the bride's name?

I'm going to have an operation. I hope everything comes out all right.

I know. I've heard. worked like a horse riding with his girl. What happened?

You must play at the wheel.

MASSEY-HARRIS
SELF-PROPELLED

THE ONE-MAN HARVESTING MACHINE

For one of the many farmers in this district who are thinking of getting out of the business of harvesting their crops, we have a very good reason to offer. It is the Massey-Harris Self-Propelled Harrow.

The Self-Propelled Harrow is a very "one-man" machine. It is the only one of its kind in the world. It is the only one of its kind in the world. It is the only one of its kind in the world.

The Self-Propelled Harrow is a very "one-man" machine. It is the only one of its kind in the world. It is the only one of its kind in the world. It is the only one of its kind in the world.

It is not only easy to use, it is easy to see and easy to use. It is not only easy to use, it is easy to see and easy to use. It is not only easy to use, it is easy to see and easy to use.

RE-EXPORTS DENIED TO THE EXPORTED—It is expected that at least 3,000 old and surplus horses will be exported this summer from Canada to Belgium for horse meat, by Gilbert Arnold of Greenville, Que. Two pictures

which recently sailed from Montreal with 666 mechanical horses on board, comprising auto, airplane, motorcycle and all other classes on the list. During the past year or so many thousands of pounds of processed mechanical have been exported to Europe. Now Canadian mechanical is being delivered at the load.

ONTARIO'S THOMAS ISLAND HAS LARGEST COLONY OF HERONS—Largest colony of great blue herons in Ontario is located in the swamp on Thorah Island, in Lake Simcoe. Nests of the long-legged, wading birds are seen in the tall elm growing on the island. Young herons of the colony is held by Carl Dusha. There are an estimated 300 pairs of breeding birds in harmony. Young are more than half grown.

Joe Martin was almost as famous in his show-world as Marguerite Western was in hitix & when he asked her to be a date, rather easy, as they met in the "evening-dress" store, everyone knew that it would be his two-track trainee climbing head-on.

As Marguerite was coming out her dark curls and reflecting on the evening before her with Joe, the bell rang through the house and Aunt Matilda dashed in.

The look of her niece appearing

Another dude I suppose?" she asked as though she didn't know. Then she added deliberately: "Howdy, Mags! Take my advice and kiss him. You know how I feel about him. I'm an old maid because I did all the talking."

Marjorie looked at Ann Martin. She'd never heard her say that tone before, there was something remarkable in it, something that made her feel sorry for her aunt.

"I don't get it," she said, musingly, and the other girl looked at her and wondered why Joe Martin had never married her. She was certainly handsome and pleasant too.

"Don't talk too much before you know what you're saying," she said.

"Let's," Joe agreed and they drove.

It was now sitting back in Joe Martin's thought. "I would be heavenly to sit next to him like all his life. But his damn always ended with me."

There was so much excitement in the park when they arrived. Mothers calling over to their sons, telling them inside with marked-down tickets.

Marguerite and Joe walked through the crowded aisles and eyed the many children and adults on the grounds. They reached the

Miss Lillian Reid left on Monday to teach in Calgary after having spent two weeks with her parents.

Staffer Bros. and Vern Smith arrived home last week-end from Kenora, where they have been combining for several weeks.

The weather has been fine and warm the past few days and crops have been ripening off fast.

Harvesting is under way and it is hoped that frost will hold off for a couple of weeks to allow late grain to ripen.

Archie Berre and John Biddle will conduct an auction sale for Ethel P. Baum 15 miles west of Water Valley on Friday, Sept. 12th commencing at 1:30.

It has been decided to revert to standard time in this district at midnight on Thursday, Sept. 4th and everyone should therefore set their clocks and watches back one hour when they go to bed on Wednesday night.

Baseball Notes

A good crowd accompanied the team to Oshkosh last night, when Carstairs lost the final game of the league play off to St. Bonny by a score of 6 to 4.

Local battles could not connect with the pitching of Scholten and men held in two hits.

In spite of the fact that they lost out in the final, the team have well pleased with their record for the season, having won all but 7 of the 17 games played this year. Carstairs—1946-1947—3

Trainman Killed In Train Crash Tuesday

George Albert Williams, 32, of Calgary, O.P.R. Fireman was killed Tuesday midnight when he jumped from his engine just before it crashed into the rear of another freight train which was standing in the yard at Carstairs. Williams is believed to have struck his head on a tie when he fell.

The standing train was on the main line, with the engine about 100 feet north of the station, while the crew picked up a load of stock.

The crew of the second train apparently did not see the other train until they were quite close and when they saw that a crash was inevitable, the fireman and head-end brakeman jumped, one on each side of the engine. Williams who jumped to the left, fell on the passenger track and was killed, while the brakeman received injuries to his head and arm. The engineer, Martin Horn, of Calgary, stayed with the engine, which ploughed through the standing engine, splintering its tank and twisting and wrenching two tank cars just ahead, before it came to rest on its side in front of the station.

A number of empty cars on the second track, left the rails and slid up in a bunch, three high. In all, 16 cars were smashed or derailed. The outside housing was sheared from the water tank, broke the truck, leaving the tank exposed. A considerable section of the track and the station platform was also torn up, but fortunately the station was (continued on page 2)

Community Sale for Community Risk Fund

Within the next few days a list of information on, and entry forms for the community auction sale to be sponsored by the Board of Trade will be going out to all residents and property owner of the Carstairs District.

The proceeds of the sale, which it is hoped can be made the largest ever held here, will go to Memorial Arson fund in an effort to finance the completing of the Arson which is now well started.

Donations to the sale can be made on an outright or payment basis. This is being done to ensure a large quantity of fine clean goods, new, from machinery, etc. to attract outside buyers.

Safe proceeds from goods donated outright will all go to the risk fund, whereas, a percentage, yet to be determined, of the proceeds of these articles entered on this basis will be donated to the Risk fund in the balance returned to the donor.

The committee is particularly anxious that all articles entered will be of quality or that when the sale is made up, outside buyers will be interested. They also request that returned items be fitted in and returned as soon as possible so as to maintain the work of men who will cover the station later in the week.

Story items should be returned to Mr. D. V. Ottaway at the Bank of Montreal and good livestock and farm machinery entered will be given a valuable bonus.

It is proposed to hold the sale on September 1. Let's all go to gather and make this the biggest thing of its kind ever to be held in this part of the province.

...so Mary
will take up
nursing
after all

It looked for a while as if a temporary financial problem in the family might keep Mary from finishing "High". If she had to quit school to help the family income that would have meant good-bye to her hopes of becoming a nurse.

But here she is, starting her final year. Did her Dad suddenly come into some money?

No... and yes. He consulted his bank manager, who told him how the bank, through personal loans, often helped people to meet just such situations. Arrangements were made, and now Mary will take up nursing after all.

In 1946 Canada's banks made half a million personal loans to Canadian men and women.

THIS IS ONE INSTANCE
of how Canada's 5,000 branch
banks play their part in the daily
life and work of Canadians.

It's getting so now that when a man is run over by a car, his death is considered due to natural causes.

Some men money for money and others are merely curious.

Two lovers walking down the street.
His trip he murmurs Careful.
Honey,
Now wait, They walk the sidewalk street.
His trip, he growls. Push your feet.

Is your heart-and a bookworm?
No, just an ordinary man.

People who live in glass houses should have stained glass.

Do you remember the fellow who when asked what he did with his wages, answered: Part for liquor, part for women, and the rest I spent foolishly.

We are pretty sure that Pat and Mike never sold all the things attributed to them.

Something ought to be done to preserve our old life, they ought to leave the pub open day and night.

A rich man lying on his death bed, called his executor who had been in his service for years, and said; Ah, James, I am going on a long and rugged journey, would you say you drive me?
Well, sir, I would like to suffer. There's one comfort I'll all do all!

Then there's the story of the man who baked himself in his car and pulled the wheels down so he could strip the gears.

I got up at dawn the other day to see the sun rise.
You couldn't have chosen a better time.

THE WEEKLY SPECIAL FULL

It's getting so now that when a man is run over by a car, his death is considered due to natural causes.

Some men worry for money and others are nearly married.

You know building down the street. She says to someone: "Confound it!"

New word. They walk the sidewalk.

She trips, he groins. Pick up a girl.

In your husband's back? No, just an ordinary one.

People who live in glass houses should have stonemasons.

Do you remember the fellow who when asked who he did with his wages, answered: "Part for liquor, part for women, and the rest I haven't decided."

We are pretty sure that Pat and Mike never met all the things attributed to them.

Something ought to be done to prevent our wild life, they ought to leave the pole open day and night.

A child was lying on his back, took him to his father who had been in his service for years, and said, "Now, I am going on a long and arduous journey, write this my last will and testament."

Well, the astonished the officer there's no comfort it'll do what!

Then there's the story of the man who looked himself in his car and pulled the window down to go and stop the gears.

I got up at the other day to see the car run.

You might have known a better time.

A Rural Housing Project

THE NEED FOR IMPROVED RURAL HOUSING, substantial and permanent provision to rural communities in Western Canada has long been recognized. In some of these respects the federal government has long been recognized as the agency to be turned to for aid and advice. The fact that living conditions in urban centers where they have more modern homes, and that their children to larger schools, and enjoy wider cultural and recreational advantages. It is generally agreed that it is most urgent that farmsteads be improved in such a way as to make them more attractive and more comfortable. The federal government has been working on this problem for many years, and in various ways. It has been working on the problem of rural housing for many years, and in various ways. It has been working on the problem of rural housing for many years, and in various ways.

Standards To Be Improved

It appears now that considerable action is being taken to improve the standards of rural housing in Western Canada. In the case of the federal government, it has recently been announced that the Federal Rural Housing Corporation, which includes representatives of the Federal Department of Agriculture and the Central Bank of Canada, has been authorized to take up improving housing conditions for Western Canadian farmers. The corporation has been authorized to take up improving housing conditions for Western Canadian farmers. The corporation has been authorized to take up improving housing conditions for Western Canadian farmers.

Study Needs Of Western Farmers

Professor J. A. Bunnell, director of the School of Agriculture and Forestry at the University of Minnesota, announced recently that the highest standard for the entire project in the year ending March 31st, 1934, is \$10.00. It has been suggested that this Western project will be about 10 per cent of the total project, which is \$10.00. It has been suggested that this Western project will be about 10 per cent of the total project, which is \$10.00.

ONE DECADE OF RURAL HOUSING

An analysis of a United Kingdom survey, done recently, shows a very different picture from that of our own. It shows that in the United Kingdom, the rural housing problem is much more serious than in Canada. It shows that in the United Kingdom, the rural housing problem is much more serious than in Canada. PORK and BEANS THE WEEKLY SHOVEL-FULL

Judge—You are charged with shooting squirrels out of season.
Prisoner—Your honor, I shot them in self defense.

Keep that schoolgirl complexion out of the rain.

Son—Pop, what is a housecoat.
Pop—(sneezed in nose paper)
A housecoat is an awful price to pay for a cold.

Prof—Take this sentence. Let the cow be taken out of the lot. What mood?
Farmer—The cow.

On their way home after a lively night in town, the two warriors on horse passed on Waterloo Bridge and guard intently at the dark river below them.

Suddenly one of them spotted the reflection of the moon down there.

"That, old boy, what's that?" he asked.

His friend, not quite so much in the wits, replied:

"It's the moon."

Then what on earth are we doing up here?

Flattery is 90 per cent soft soap and soft soap is 90 per cent lie.

Tom—I had a date with a mind reader last night.

Jerry—Really? Did you have any fun?

Tom—No, she just sat around all evening, and blushed.

A Bountiful Harvest

Naturally for our own prosperity in Alberta, we all want abundant crops. But today those are more than ever necessary in a world of shortages.

We hope that your season's labors have been fruitful.

Just a reminder—If equipment is carefully checked when your work is done, and safely stored, it will require less attention in preparation for the next season's work.

BUY YOUR '46 VACATION

One day at a time
at the B of M...

Almost everyone has a "dream vacation" in mind. But many folks have to postpone it year after year because—for one reason or another—the ready cash is lacking when holiday time comes.

Why not make sure you will have the needed cash next year... Decide now to put enough money aside each month at the B of M to cover the expenses of one day of your 1946 holiday. It's far easier—and sure—to provide for your dream vacation this "savings" way.

Over a million Canadians are saving at the B of M for the things they want most.

Buy one day of your 1946 holiday this payday... open a "Vacation Account" at your nearest B of M branch.

PORK and BEANS

THE WEEKLY MEAT SPECIAL

SAFE, NOT BORRY

I think that I shall never see
A driver half so drunk as me
While a driver half so drunk as me
Who waits at intersection shy,
Till all the other cars go by,
Who tumbles over on his side,
That day he lights turn right again
But still I've never killed a man
By the careless use of my car.
I move along just over his shoulder
And I leave him just over his shoulder
And I leave him just over his shoulder
And I leave him just over his shoulder

Hobby—If I'm going to be late
perhaps better tonight. I'll send you
a note.

Was—Never mind I found it in
your pocket last night.

The modern mechanical genius
is the man who can do things
as fast as a machine without getting his face
slapped.

In the good old days, a man who
could do things as fast as a machine
was a wonder.

He's looking better than you, I
suppose the way, indeed, did you
the first you need to go with, or
any thing else you're looking up
Hobby?—Yes

What pretty hair you have, Mary,
and the ribbon. You must have
it from your mother.

No, I got it from Mary. I got it
from Mary. I got it from Mary.

Have you and your program, Will
too?

You mean,
Did you get to be made a better
boy?

You and I also put in a good
word for you and dad.

Goodbye—a period in which a
child's desire to be a soldier or
a doctor is a natural one, and
it is a good thing to encourage it.

PORK and BEANS

THE WEEKLY SHOVEL-FULL

Tell a plump girl she's getting fat and see what happens!

Three times now my wife has sent for the money to come home from her summer trip.

Three times! And she hasn't come home yet! Changes her mind and spends the money. I presume!

Oh, no, she wouldn't do that. Three why hasn't she come home? I haven't sent it to her yet.

She always tries to have her boarders meet a lot of pretty girls. Why?

She says a young man never calls unless she is in town.

Pa, what is a dead game sport? One who lets his game of the butcher after his hunting trips, my son.

Why do you insist on having money with every dinner cooked the old fashion.

It preserves the pleasure, explains the propriety by giving the proper something besides the food to feed faith with.

Look here, sir, said the impatient customer. I am talking about that bill you gave me. Will you please pay a little attention.

Money, replied the other free customer, that's easy. Only don't ask me to pay you anything else!

A little girl came to her mother one morning and said: "Mamma, I don't feel very well." "Well, that's too bad, where does it feel the worst?" In school, was the prompt reply.

Man About Town—I was robbed last night and I lost fifty-three articles of furniture—everything I had in the world!
Police Officer—Fifty three at Man About Town—You a pack of cards and a corker—!

Donations to Carstairs and District Memorial Arena Fund

Junior Barley Club Show Was Success

The junior seed fair which was held on Oct. 31, proved of unusual interest, and brought in an excellent profit for the fund for the Carstairs and District Memorial Arena Fund.

Following are the winners from each club:

Grassfield Donald, Last First, Edward Alfred, Ronald, John Cap (For Third); Michael (Fischer) fourth, Jim Oulding fifth.

Carstairs Wallace Riddle first, Harold Neelands second, Stanley Bill third, Irene Bill fourth, Kenneth Wood fifth.

The samples shown were fine on date and the first three winners from each club will be seen at the Calgary Provincial seed fair next spring.

It is the hope of these clubs that they can assist in establishing a higher standard of farming in their districts and aim to train the youth of rural areas in better techniques as well as better farming. The club members wish to thank those who generously helped in setting up for the day's prize. The ladies were as usual by Osh (Jenny).

Secretary, Bill, President, Harold S. Smith, Secretary.

Joint Memorial Service At 3 O'clock Sunday

A joint Memorial Service will be held in Carstairs hall on Sunday afternoon at 3 o'clock and all citizens are asked to join in the service.

Ex service men and women are asked to meet at the living hall on Sunday at 2:45 from which point they will march to the hall.

The program of the service appears on page 3.

Community Sale to Aid Rink Fund Nov. 15th

Exhibition for the community sale which will be held on Saturday, Nov. 15, has been under way well and the committee expects this to be the biggest event of its kind ever held in this part of the province. Bids being the articles required to date will be made up this week but further entries will be taken up to the time of sale.

If you have not yet made your entry, it is well to hasten the same. Send along get in touch with M. Ford or D.V. Glimmer any time to see how on Nov. 15th.

Prime Dance Nov. 11th

Presbyterian Notes

In honor of Mrs. Johnston and baby Susan, Mrs. Alexander on behalf of members and their babies of the Cradle Roll, Wednesday afternoon. This proved a very happy gathering and so well as suitable refreshments for the little ones a gift was given to each.

A special meeting of the "Yampa" Association took place at the home of Mrs. Alexander on Nov. 7. Arrangements were made to serve a child on supper in the dining room of the hall.

Watch the food prices for date

About four inches of snow fell Monday night and the weather has been a bit more nippy the past few days.

Harvesting was almost completed on the storm here but there are still a few farmers who have a couple of days left before they will be finished.

Making Atomic Weapons Not Canada's Role

Canadian Efforts Are For Peaceful Purposes, Says Atomic Scientist

"CANADA is not going to have a nuclear weapons program," said Dr. George E. Lodge, a Canadian atomic scientist, in a statement today. The production of atomic weapons, he said, is the responsibility of the industrial nations.

Dr. Lodge, who is a member of the Atomic Energy Control Board, said that while the United States has the second most atomic bombs in the world, Canada has only a few.

He said that the purpose of the atomic energy program in Canada is to develop atomic energy for peaceful purposes.

Canada has not received from the United States any equipment or material for the production of atomic weapons.

The statement was made in the House of Commons today.

BUSINESS IN SEEDS

Over two million dollars worth of seeds were imported from the United States last year, according to a report by the Canadian Seed Industry Association.

The report said that the United States is the largest source of seeds for Canada, with over 80 per cent of the seeds imported from there.

The report also said that the Canadian seed industry is growing rapidly, with a 10 per cent increase in production last year.

Corrosive Hls. Overcome Handicap

Lost Both Arms But They Remained Strong

The German painter and cartoonist, Carl Friebe, who lost both arms as the result of an Allied air raid on the Berlin Zoo, is now painting again.

Before the war Carl Friebe was one of the most famous artists in Germany. He worked chiefly for the newspapers, but also specialized in book illustrations.

He was working on a series of drawings for a new edition of Goethe's works at the time of the bombing.

After the bombing, Friebe was severely injured. He lost both arms and his legs. He was left with only his head and torso.

Despite his injuries, Friebe refused to give up. He began to paint again using his mouth and feet.

His paintings are now being exhibited in Germany. They are praised for their skill and beauty.

Friebe's story is a testament to the human spirit. It shows that even in the face of great adversity, one can overcome and achieve.

How Product To Destroy Poultry Lice

Don't Wait to the Following Order

From a report in the poultry industry, it is known that poultry lice are a major problem for many farmers.

The report said that poultry lice can cause a lot of damage to the birds. They can make the birds uncomfortable and even kill them.

The report said that there are several ways to get rid of poultry lice. One way is to use a special product called "Poultry Lice Destroyer".

This product is very effective. It can get rid of poultry lice in a matter of days. It is easy to use and does not harm the birds.

The report said that farmers should use "Poultry Lice Destroyer" as soon as they notice lice on their birds. This will help to keep the birds healthy and productive.

PORK and BEANS

THE WEEKLY SHOW-PULL

Who gave you that bluish oval
Fridayگوی 10th items. I had to
fight for it.

The office alert ones will have
been there as soon as the oval
got the job.

Be careful what you say. The more
you always know you would.

Think before you think—you can't
shower.

All play and no work makes job
on fast.

A new was taking a job to be
on things as well as up on steel
first day that they can't afford to
lose you.

Did you know Jones had given
up trucking. You'll want to be honest
enough.

There are three classes of girls
in the beautiful, the beautiful, and
the majority.

Fortune Teller—You have a
fortune in the girls you're
man—You'll get a true
man.

Don't give him for money you
can't give.
You, but you can't read a letter
at all.

Waitress—Here's your sheet
it is.
It is—You can't shut down.
There it is out and heavy.

The ferry boat has been in
the water and a new one is being
built.

The question of the hour is
What time is it?

Eleven Prairie Boys Training For R.C.A.F.

Totals Of 21 From Across Canada Undergoing An Eight-Week Initial Training

Eleven prairie boys are undergoing an eight-week initial training course at the Royal Canadian Air Force (R.C.A.F.) base at Trenton, Ont. The boys, who are from various parts of the prairie provinces, are being trained to become aircrew members of the R.C.A.F. The training course is a rigorous one, and the boys are expected to complete it with flying colors.

The boys are being trained in a variety of subjects, including mathematics, science, and English. They are also receiving physical training and are being taught the basics of flying. The training course is designed to prepare the boys for the more advanced training that they will receive at the R.C.A.F. base at Trenton.

Through their training, the boys are being prepared for the challenges of aircrew life. They are being taught the importance of teamwork and the need for precision and accuracy. The training course is a demanding one, but the boys are determined to succeed.

The boys are being trained by experienced R.C.A.F. instructors who are dedicated to their work. They are being taught the latest techniques and procedures for aircrew members. The training course is a valuable experience for the boys, and it is hoped that they will all go on to successful careers in the R.C.A.F.

Sandhill Cranes Of The Prairie Plains Have Virtues And Vices

Their Feeding And Distribution Rather Mysterious To Dominion Wild Life Service — Though Devastate To Game Farmers Still Like Them

They are the most beautiful of birds, the sandhill cranes, and they are also the most mysterious. Their feeding habits and distribution are still a mystery to the Dominion Wild Life Service. Although they are considered a pest by game farmers, they are still loved for their beauty and grace.

The sandhill crane is a large bird, standing about 4 feet high and weighing about 10 pounds. It has a long neck and a long, pointed beak. It is usually found in wetlands and marshes, where it feeds on plants and insects.

The crane is a migratory bird, and it travels long distances each year. It is usually found in the prairie provinces of Canada, but it also travels to the United States and Mexico. It is a beautiful sight to see a crane in flight, with its long neck stretched out and its wings spread wide.

Although the crane is considered a pest by game farmers, it is still loved for its beauty and grace. It is a beautiful sight to see a crane in flight, with its long neck stretched out and its wings spread wide. The crane is a symbol of the prairie, and it is a bird that we should all cherish.

The crane is a beautiful bird, and it is a symbol of the prairie. It is a bird that we should all cherish, and it is a bird that we should all protect. The crane is a beautiful sight to see, and it is a bird that we should all love.

PRISONER RUSHES LIFE TO SAVE SACRAMENTS IN BOMB BY FIRE—\$120,000 fire in Sutter, which left the walls of the Russian Catholic Church of Christ the King standing, broke out and soon spread through the building. Used on pyramas and bathhouse and saving fireman's helmet, the curate, Rev. S. Whiting, rushed in to rescue the blessed sacrament. Firemen pour water on burning building.

ON THE BORDER OF U.S.-RUSSIA ZONE IN GERMANY—One of the many problems that have to be overcome by farmers whose fields straddle the boundary between the U.S. and Russian zones in Germany, is the timing back and forth, the hard-gained harvest, of the farmer to till his land and harvest the crop. He needs several passes in both directions from one field to another and much valuable time is lost by the farmer as he is stopped and searched by the guards each time he crosses the border. Here a farmer drives his on-drawn cart over the Russian zone into the U.S. after being stopped by the Soviet inspector.

FORBIDDEN FRUIT - One apple department of agriculture official says, can make a person liable to a \$100 fine and a six-month jail term if that apple is sent to Britain. A rotten overripe apple must be certified free of maggots as one big sample of the pests emigrating from Canada could produce enough poison to ruin thousands of dollars worth of U.K. apples.

QUARTERS CUT UP HOME TO KEEP WARM — This half-home in Marshert, Mo., was an stoveless-owned four-room home before a mother and son, both squatters, moved in and cut up all but one room for bedding wood.

"NOTHING TO GET EXCITED ABOUT" HE SAYS—Nothing to get excited about, Joseph Malcom of Mississauga, Ont., and his wife when they were told they had won \$20,000 the recent Irish sweepstakes. Here are Malcom, his son Frank, Mrs. George Malcom, M. Upton, daughter, and M. Upton, son-in-law, with Donald, nine months old.

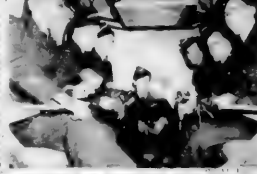

WORLD'S LARGEST FLYING BOAT TAKES TO THE AIR—Howard Hughes' 400,000-pound flying boat, the largest airplane in the world, made an unexpected flight recently when Hughes took it out to test against the water, then changed his mind and lifted it into the air. The huge ship is destined near a cargo vessel loaded with 400 tons of dynamite.

England's chief military officer, the master of the guard, was killed in 1485.

A Threat Of Disaster

A NUMBER OF FACTORS ARE CONTRIBUTING TO THE great danger which threatens the Canadian West, according to a report recently issued by the Canadian Council of Economic Advisors. The report states that the Canadian West is facing a serious threat of disaster, and that the situation is becoming increasingly serious.

Less Food But More People

As the population of the Canadian West increases, the food supply is becoming increasingly inadequate. The report states that the Canadian West is facing a serious threat of disaster, and that the situation is becoming increasingly serious.

Supplies From Canada

As a remedy for the approaching crisis, the report suggests that the Canadian West should increase its food production. The report states that the Canadian West is facing a serious threat of disaster, and that the situation is becoming increasingly serious.

More than a Million Canadians

WROTE
THIS BILLION-DOLLAR STORY

Everywhere in Canada—in villages, towns, metropolitan centres—you can find them.

They are the people—1,300,000 strong—in every walk of life who are building their future and doing their duty by financing by saving or borrowing at the Bank of Montreal.

Every member of this B of M family has a hand in building the revenues of the Bank while he builds his own future. These revenues, which amount to over a billion dollars, come almost entirely because of the balances these people can show you in their B of M passbooks.

This money does not stand idle—it works constantly for the building of the nation.

How is the money that makes the wealth of common men . . . that helps the farmer grow his crops . . . that helps the businessman buy equipment and pay his men.

How are the dollars that enable the Bank to make more than 300 personal loans every business day of the year to men and women who need money to meet emergencies and take advantage of opportunities.

Here is the credit that provides thousands of business enterprises—with the ready money they need to buy raw materials for manufacture, to buy wages while waiting returns from the sale of finished goods, and to carry out plans for expansion.

To common on salaries . . . to farmers with seasonal incomes . . . to merchants, manufacturers and businessmen in every worthwhile line of endeavor . . . to municipalities, school boards and governments . . . to churches, hospitals and all types of public institutions . . . hundreds of millions of dollars are being loaned by B of M managers at more than 400 branches from the Atlantic to the Pacific.

These millions of transactions add up to a billion-dollar flow that makes interesting reading—more so much on account of the figures involved, but because of the human stories behind them.

THE FACTS BEHIND THE FIGURES

WHAT THE B of M HAS TO MEET ITS OBLIGATIONS:

DEPOSITS: The B of M has cash on its books and money on deposit with the Bank of Canada amounting to \$1,000,000,000.00.

LOANS: In the form of cash, cheques, and money on deposit with other banks, the B of M has \$1,000,000,000.00.

INVESTMENTS: The B of M has close to one billion dollars invested in high-grade bonds, stocks, and other public securities, which have a steady rate of return. The B of M has also invested in real estate, which has shown a steady increase in value.

PROPERTY: The B of M has a large amount of property, including office buildings, warehouses, and other structures, which are well maintained and productive.

RESERVES: The B of M has a large amount of reserves, which are held in the form of cash and securities, to meet its obligations and provide for future needs.

Carbon Monoxide Hazard To Everyone's Safety ::

A hazard of safety in both home and industry is the carbon monoxide gas, which is a deadly poison and gives no warning before it strikes. It is a colorless, odorless, and tasteless gas, which is deadly when inhaled.

THE WEEKLY SHOVEL-FULL

The weather forecaster looks a little right in three months, and his resignation seems a little surer. His skills, however, pleased the city council. I can't stand this town any longer, read his note. The climate doesn't agree with me.

Do you know how to make anti-frost, Master? Sure. Hate her pajamas.

The restaurant patron beckoned the waiter. Please close the window he said nervously. I am afraid this streak is going to blow away.

We agree there was a big dinner last night, said the Mathon. Here, but it didn't last too.

I had to run into a house to avoid some standing in the road, the motorist explained to the judge. Was it a horse car? he asked. I wouldn't know, he said. I didn't see its license plate.

Two farmers liked to grow to meet each other. Never did we say grow so short as some this summer, said one. You think yours is short, answered the other. I had to father mine to meet it.

A Southman was visiting a pal and had overstayed his welcome. It was getting towards Xmas and he had thought a kindly host was needed.

Dad, you think, he said that your family will want you to be with them at Christmas? Men, replied the host, I believed your right. It's the rule of the club if you'll want for them.

Sign in the window of an Altona. Go, barber shop. Rationed on Guaranteed or Your Hair Refused.

Fred Allen knows a man who is such a fool that his stocking hangs him up for Christmas.

CHRISTMAS DEAL SALE

SOON OVER \$1.15 MILLION

A telephone report from the Alberta Telephone Association says that the week ending December 8, 1947, was the busiest week in the history of the province. It was an increase over last year at the same time, there is still a long way to go to reach the \$1.15 million mark. However, if everyone who has reserved mail would send in contributions without further delay it is confidently expected that the objective could be reached by Christmas.

K.P.R. TO MAKE FILM ON WEEKLY NEWSPAPERS

The vital role of the Canadian weekly newspaper in the life of the community and the nation will soon be recorded on the motion picture screen. A film, still untitled, and currently in the state of being sold, is to be produced by the National Film Board, depicting the important position held in each province by its weekly press.

When released, the film will be available to film libraries and film libraries will be able to loan them and will also offer nationwide screening on the R.F.B. system. It will be a valuable educational tool for schools and libraries. Eventually, it will be a valuable educational tool for schools and libraries.

CAN'T SHOW...

This asset is the Bank of Montreal. It is the Bank of Montreal. It is the Bank of Montreal.

No amount in deficit can ever represent the value of this asset. Yet, of its nearly two billion in resources, no asset of the Bank of Montreal is so productive as these people who daily serve their customers - just as BoM people before them have served on every business day since November 3rd, 1817.

Behind this asset is the accumulated experience of 150 years. Through five generations, the experience of the original staff of seven has multiplied as the B of M family has grown in strength and number. Each member of this family is a distinct personality - together, nearly nine thousand of them make the BoM.

BoM

The remarkable service of the bank and its staff is the result of the bank's long history. The bank's long history is the result of the bank's long history.

ONE BIG ASSET

our balance sheet

CAN'T SHOW...

This asset is the Bank of Montreal. It is the Bank of Montreal. It is the Bank of Montreal.

No amount in deficit can ever represent the value of this asset. Yet, of its nearly two billion in resources, no asset of the Bank of Montreal is so productive as these people who daily serve their customers - just as BoM people before them have served on every business day since November 3rd, 1817.

Behind this asset is the accumulated experience of 150 years. Through five generations, the experience of the original staff of seven has multiplied as the B of M family has grown in strength and number. Each member of this family is a distinct personality - together, nearly nine thousand of them make the BoM.

The enraged tenant called his
landlord and shouted: The waste of
the time are taking more each
day. Just what are you going to do
about it?

His new, came from the landlord—
I see it if you're getting more
enraged for the same rent. I'll
have to raise you accordingly.
